**Subject:** NRC to require HOSS

We are writing to comment against NRC's Nuclear Waste confidence game. It is an illusion that on-site storage of high-level radioactive waste in indoor pools and outdoor dry casks is actually safe for 120 years, and perhaps as long as 300 years.

We urge NRC to require Hardened On-Site Storage (HOSS), and demand that nuclear power be phased out to stop the generation of high-level radioactive waste in the first place.

thank you,  
Linda and Lewis Paleias
