SUBJECT: MEETING ANNOUNCEMENT - CATEGORY ONE - BROWNS FERRY  
NUCLEAR PLANT, DOCKET NO. 50-259, 50-260, and 50-296

Dear Mr. Shea:

This letter is to inform you of a Category 1 public meeting to conduct a Regulatory Conference, which has been scheduled for July 25, 2012, at 9:00 a.m. Eastern Standard Time (EST). The enclosed meeting notice provides additional details. The purpose of this Regulatory Conference, scheduled at your request, is to discuss the safety significance of one preliminary White finding associated with one Apparent Violation that was documented in NRC Inspection Report 05000259/2012007, 05000260/2012007, and 05000296/2012007 (ML12150A219). The findings dealt with the failure to adequately perform an evaluation of training needs for implementation of four new Safe Shutdown Instructions as required by procedure NPG-SPP-09.3 "Plant Modifications and Engineering Change Control". This resulted in the systems approach to training not being properly performed to implement the procedures and the plant operators not able to satisfactorily perform the procedures. This conference will also address whether enforcement action is warranted for the associated Apparent Violation.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be made available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room).

Should you have any questions concerning this meeting, please contact me at (404) 997-4662.
