Docket, Hearing

From: Linda Seeley [lindaseeley@gmail.com]
Sent: Thursday, September 13, 2012 1:24 PM
To: Docket, Hearing
Subject: Objections to Indian Point licenses/relicensing

You must know that relicensing a nuclear power plant that is hosting thousands of tons of highly radioactive waste, in a seismically-active zone, in harm's way to 15 million people, is illogical, immoral, and indefensible.

Please act within your own mandate to protect the public, not the utility companies.

Deny the relicensing application for Indian Point.
