**To:** Docket, Hearing; Siarnacki, Anne  
**Subject:** Indian Point letter

Dear Madam/Sir,

I am writing to ask you to consider devastation if we Americans are subjected to positive re licensing of the Indian Point Nuclear Power Plant.

Devastation of millions of Americans and those visiting the United States. Permanent devastation of the environment. Complete abandoning of accumulated wealth. Trillions in taxpayer funded infrastructure lost. Simply, there is no plan for hardened waste storage that will last for millions of years. There is no evacuation plan. It's old and was built to last only 40 years. Little leaks are not fixed. Ground water is contaminated. Pollution from mining, transportation and waste storage are not carbon dioxide free. Heat pollution in the Hudson requires immediate relief. What is the plan if the Hudson becomes too warm?

Thank you for your consideration of these simplified issues. Signal America we can grow strong without dangerous energy sources.

Sincerely,

**Wyldon King Fishman**
