Ryan:

The NRC staff would like to discuss the below response during the next Fermi OI call to be held on 9/13.

We also need to pin down a date for the public meeting to be held here at the NRC. Please let me know which date you are thinking about so that we may run it pass the staff and get the information posted on the public web site in a timely manner.

Looking at the tech staffs' calendar, the last week in Sept may not be good for one of our key players. We may need to look into having the meeting the first week of October.
