Subject: Close Indian Point

Dear Office of the Secretary, Rulemakings and Adjudications Staff, U.S. Nuclear Regulatory Commission,

Indian Point Nuclear Power Plant is dangerous and in a very populated region. I'm sure you know all the arguments, I don't need to write them all out. Please, for the health & safety of the many millions of people living downwind or in the same water supply area (including me), don't re-license Indian Point Nuclear Power Plant.

Sincerely,
Elke Lerman, citizen of the USA & resident of the area affected by Indian Point
