**To:** Docket, Hearing; Siarnacki, Anne  
**Subject:** Written Statement on the Application of Entergy Nuclear Operations, Inc. (Entergy) to renew its operating licenses for Indian Point Nuclear Generating Units 2 and 3

Dear Chairman McDade, Dr. Kennedy, Mr. Wardwell, and Ms. Siarnacki:

I live in Croton-on-Hudson just over 5 miles from the Indian Point nuclear power plant.

Based on the high population density alone, the Nuclear Regulatory Commission would not now approve the siting of a nuclear power plant in Buchanan, New York. No reasonable person would relicense the operation of these plants given what is now known about the threats from earthquakes, terrorists, and aging pipes. Only in the fantastic world created by nuclear regulations would the relicensing of these plants even come under consideration.

I sincerely beg you to deny relicensing of these plants based on common sense and decency.

Respectfully, Mary Cronin
