The NRC staff reviewed your letter to the NRC EDO dated August 15, 2012, regarding inaccurate and incomplete information entered into a quality assurance record at Callaway Plant and, in accordance with Management Directive (MD) 8.11, "Review Process for 10 CFR 2.206 Petitions," the staff has concluded that your request does not meet the criteria for review under 10 CFR 2.206. Per MD 8.11, the NRC will not review a request where the petitioner raises issues that have already been the subject of an NRC staff review and evaluation on that facility, for which a resolution has been achieved. This includes requests to reconsider or reopen a previous enforcement action. These requests will not be treated as a 2.206 petition unless they present significant new information. Your petition raises issues that have already been reviewed and evaluated by the NRC for Callaway Plant. A letter documenting the staff's decision to not accept your petition will be sent to you in the near future.

Thank you,
Fred Lyon
NRR/DORL Project Manager for Callaway Plant
