To the NRC Judges:

Indian Point poses an enormous public health risk to Croton on Hudson, where I live and to all the communities in Westchester, and in fact to New York City. There is no other nuclear reactor so close to such a large population. This would be of concern but Entergy has had a consistently deplorable safety record. To re-license them would be a disastrous mistake.

Sincerely,

Mary Charlson MD

Professor of Medicine, Weill Cornell Medical College
