RE: License Application
Ratts Generating Station

Dear Sir:

Attached please find two copies of NRC form 313 along with supporting documentation for Hoosier Energy's Ratts Generating Station's License Application.

During review of the Merom Generating Station's Radiation Protection Plan, it was discovered (11-29-11) that the devices at the Ratts Generating Station did not have a federal license. It is believed they are required to have a federal license based on changes to the regulations in 2007.

NOTE: The devices at Ratts are registered through the state of Indiana.

If you have any questions or need any further information, you can contact me at (812) 356-4291 ext. 3109

Sincerely,

Jacquelyn R. Bush, RSO
