Materials Licensing Branch Nuclear Regulatory Commission, Region III 2443 Warrenville Road, Suite 210 Lisle, IL 60532-4352

Re: NRC License Numbers 24-16597-01

Dear Sir or Madam:

The enclosed documentation pertains to three amendment requests for the Golden Valley Memorial Hospital License number 24-16597-01. The three amendment requests are as follows:

- 1. Please remove item 6.C., any byproduct material permitted by 10 CFR 35.300. There will no longer be an authorized user on the license for the use of 10 CFR 35.300.
- 2. Please amend the license to change the RSO to Kenneth E. Jones, D.O. Dr. Jones is an authorized user on the current license. Documentation to support the request to change the RSO is enclosed.

If you have any questions regarding this amendment request or require any additional information, please feel free to contact us. The contact person is Phil James in the Nuclear Medicine department. His telephone number is 660-885-5511. Thank you for your review of this amendment request.

Sincerely,

Randy S. Wertz.

Chief Executive Officer

Golden Valley Memorial Hospital

James C. Clouse, D.O.

Radiation Safety Officer

- 1 Nour Do

Date:

August 13, 2012

Memo To:

Kenneth E. Jones, D.O.

Radiation Safety Officer

From:

Randy Wertz

Chief Executive Officer

Subject: RSO Delegation of Authority

You, Kenneth E. Jones, D.O., have been appointed Radiation Safety Officer and are responsible for ensuring the safe use of radiation. You are responsible for managing the radiation protection program; identifying radiation protection problems; initiating, recommending, or providing corrective actions; verifying implementation of corrective actions; stopping unsafe activities; and ensuring compliance with regulations. You are hereby delegated the authority necessary to meet those responsibilities, including prohibiting the use of byproduct material by employees who do not meet the necessary requirements and shutting down operations where justified by radiation safety. You are required to notify management of situations where staff are not cooperating and not addressing radiation safety issues. In addition, you are free to raise issues with the Nuclear Regulatory Commission at anytime. It is estimated that you will spend 4 - 6 hours per month conducting radiation protection activities.

Randy S. Wertz

Chief Executive Officer

I accept the above responsibilities,

Kenneth E. Jones D.O.

Radiation Safety Officer

RADIATION SAFETY OFFICER TRAINING AND EXPERIENCE AND PRECEPTOR ATTESTATION [10 CFR 35.50] Name of Proposed Radiation Safety Officer Requested Authorization(s) The license authorizés the following medical uses (check all that apply): Second Second	RC FORM 313A (RSO)	U.S. NUCLEAR REGULATORY COMMISSION
