WISCONSIN	19,423	11,328	1,767	2,544	3,784	393	5,671,361
WYOMING	1,962	1,295	108	125	434	66	559,627

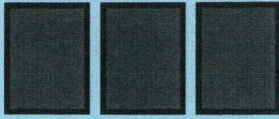

NOTE: Caution should be used when comparing data from one state to that of another. The responsibilities of the various state police, highway patrol, and department of public safety agencies range from full law enforcement duties to only traffic patrol, which can impact both the level of employment for agencies as well as the ratio of sworn officers to civilians employed. Any valid comparison must take these factors and the other identified [variables affecting crime](#) into consideration.

Hunter, Katie Beth

From: Russell Fishbeck <russell.fishbeck@tpwd.state.tx.us>
Sent: Thursday, February 16, 2012 9:38 AM
To: Hunter, Katie Beth
Cc: Brenda Justice; David England; Kelley Morris
Subject: RE: Annual visitor usage of 3 state parks

Ms. Hunter,

In response to your inquiry about visitation for the following State Parks, I have included total annual visitation for FY11. I'm not exactly clear on what you need relative to "peak daily number of visitors."

I would also be interested in knowing what kind of environmental report you are working on and how our State Parks are connected?

FY 11 (Sept 1, 2010 through Aug. 31, 2011) Visitation:

Goliad: 53,878

Goose Island: 127,235

Lake Texana: 43,877

I can be reached at 361-790-0303.

Thank you,

Russell Fishbeck

Subject: Annual visitor usage of 3 state parks

Hi Ms. Justice,

I left you a voicemail earlier regarding annual visitor usage of three Texas state parks. This information will be used to check an existing environmental report my company is currently working on.

I need to find out the annual number of visitors and the peak daily number of visitors for:

Goliad State Park
Goose Island State Park
Lake Texana State Park

If you wish to discuss this information over the phone please call my cell at 706.664.9582 because I will be traveling until Friday. Any information you can provide will be greatly appreciated!

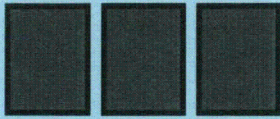

Thanks in advance for your help,
KatieBeth

Brenda Justice	Texas Parks and Wildlife Department, State Parks 361/645-3405 (left voicemail 2/13/12)
Russell Fishbeck	Texas Parks & Wildlife Department State Parks Region 2 Director 361-790-0303

Summary of Conversation: Left voicemail and follow up email with Brenda Justice 2/13/12. Received emailed response from Russell Fishbeck and followed up with him via telephone on 2/17/12 in an effort to get peak daily visitor information.

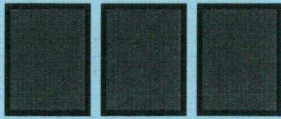

Russell Fishbeck stated he did not have that information but to narrow the scope- he could provide the busiest months for each park based on revenue and mostly attributed to spring break.

Goliad State Park- March
Goose Island State Park- March
Lake Texana State Park- March

Welcome to Coletto Creek Park

The Coletto Creek Park and Reservoir, located midway between Victoria and Goliad, is a joint project between Coletto Creek Power and the GBRA. At normal pool elevation it covers 3,100 surface acres with 61 miles of shoreline. The main purpose of the reservoir is to serve as a cooling pond for the Coletto Creek Power coal fired power plant. The reservoir is fed through four major creeks from a 507 square mile drainage basin. The average depth is eleven feet and the reservoir maintains at a constant level.

Opened to the public in February 1981 for year-round outdoor recreation opportunities and access to the Coletto Creek Reservoir, the park consists of 190 acres, of which approximately 40 acres have been developed.

Park Amenities

Camping

- Fifty-two multi-use campsites (water, 20/30 amp electric hookups, BBQ grill, and picnic table).
- Six multi-use pull through campsites (20/30/50 amp service, water, BBQ grill, table).
- Dump Station
- Laundry Facilities
- Four camping cabins
- Four Rental Travel Trailers
- Primitive Camping

Park Facilities

- Two covered group pavilions for family reunions, company picnics, class reunions, etc. with their own volleyball court, horseshoe pit, marked swimming area, BBQ pit, water, and electricity
- A 1.5-mile long hiking and nature trail
- A 6-mile long single track mountain bike trail
- Two viewing/nature photography stations
- 2 Playgrounds
- Restrooms with Showers
- Volleyball Courts
- Picnic area with 70 picnic tables with BBQ grills, marked swimming area, playground, and sand volleyball courts.

Water and Beaches

- Four lane boat ramp, that provides the only public access to the reservoir.
- A 200 foot lighted fishing pier.

Goliad is one of the oldest municipalities in Texas. In 1749, the Spanish government transferred Mission Espiritu Santo and its royal protector, Presidio La Bahia, to the site of a small Aranama Indian village, which they named Santa Dorotea; this mission served the Aranama, Tamique, and their allies for 110 years, longer than any other Spanish colonial mission in Texas.

A small villa grew up around the walls of the presidio, and was called La Bahia. This area was occupied by the Spanish until 1821, when Mexico won its independence from Spain. The name of the town was officially changed to Goliad in 1829. Goliad is a phonetic anagram of Hidalgo, the name of the priest who became a hero during the Mexican Revolution. Mexican soldiers occupied Presidio La Bahia from 1821 to 1825.

The first great cattle ranch in Texas is said to have its beginnings at Mission Espiritu Santo. Along with its sister, Mission Nuestra Senora del Rosario, Mission Espiritu Santo possessed the largest longhorn herds in the state, at times owning more than 40,000 head.

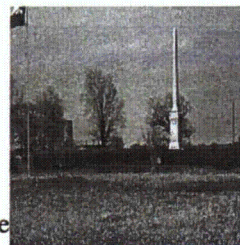

The first offensive action of the Texas Revolution occurred here on October 9, 1835, when local colonists captured the fort and the town. The first Declaration of Texas Independence was signed on the altar of the presidio chapel on December 20, 1835. As 92 citizens signed the document, pledging their support to the cause of freedom, the "Bloody Arm" flag, first flag of Texas independence, was hoisted above the town.

The flag, described as a white ground, in the center of which "...was a sinewy arm and hand painted red, grasping a drawn sword of crimson," symbolized the Texians' willingness to make any sacrifice, no matter how great, to win their freedom from the tyranny of General Antonio Lopez de Santa Anna.

During the 1836 Texas campaign, Colonel James Walker Fannin's force surrendered in defeat at the Battle of Coleto Creek. The Texian soldiers were imprisoned in the presidio for a week. On Palm Sunday, March 27, Col. Fannin and his 341 men were marched outside the walls and shot, making Goliad the site of the largest single loss of life in the cause of Texas independence. The Goliad Massacre, which accounted for twice the loss of life as that at the Alamo, was, in part, the inspiration of Gail Borden's headline, "Remember Goliad! Remember the Alamo!", which became the rousing battle cry of the victorious Texians at the Battle of San Jacinto.

One of Goliad's most endearing legends was also born of the heroism associated with the massacre here--that of the Angel of Goliad. Panchita Alvarez, wife of a high-ranking officer in the Mexican army is credited with saving at least 28 lives, by begging the commander there to spare them. One of the survivors, Dr. Bernard, wrote, "Her name deserves to be recorded in letters of gold among those angels who have from time to time been commissioned by an overruling and beneficent power to relieve the sorrows and cheer the hearts of man."

Many of the buildings on the Courthouse Square, now housing a pharmacy, antique shops, gift shops, and private residences, date back to the early 1800s. In 1976, Goliad's Courthouse Square Historic District was entered on the National Register of Historic Places. Visitors are invited to take the Downtown Walking Tour, which features, among others, the sites described below.

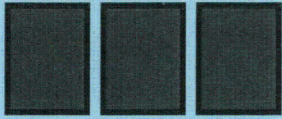

Fannin Plaza Park: Recorded Texas Historic Landmark. This city park is highlighted by a memorial shaft and Texas Revolution cannon. The larger of the cannon bears the inscription, "Used by Col. Fannin and His Men on Fannin Battlefield in Goliad County in 1836." The memorial was erected in 1885.

Goliad County Courthouse: Recorded Texas Historic Landmark. Goliad's third courthouse, and the second on this site, this roughcut limestone structure was designed by Alfred Giles. The stones used in its construction came from the old courthouse, which was built in 1865; according to stories, some of this stone was originally hauled from Austin by oxcart. This courthouse building was completed and occupied in August, 1894. After a 1902 tornado devastated most of the city, the courthouse served as a hospital and a morgue. In 1942, a hurricane destroyed the clock tower and turrets; in 1964, the interior was renovated, and the original wainscoting and carved staircase were retained. On display at the courthouse are the nine flags that have flown over Goliad.

Hanging Tree (Cart War Oak): Recorded Texas Historic Landmark. Between 1846 and 1870, this live oak tree served as the site of court sessions. Death sentences pronounced by the court were carried out immediately. During the 1857 Cart War, during which Texan freighters perpetrated a series of vicious attacks against Mexican cart drivers along the Indianola-Goliad-San Antonio Road, this tree was also the site of a number of unauthorized lynchings, before the Texas Rangers brought the conflict under control.

Masonic Temple: Recorded Texas Historic Landmark. Constructed and dedicated in 1854, this limestone structure is home to Goliad Lodge No. 94, the oldest Masonic Lodge in continuous use in the state of Texas. Lodge members have always met on the

Cove Park Cove Park, a five acre public park is situated between Ingleside the city of Ingleside, off of Highway 1069. Built in 1991, this park has two free boat ramps that offer boaters and fishermen a direct outlet into LaQuinta Cr Christi Bay. The park also has a small fishing pier, four shaded picnic areas grills and approximately one quarter-mile asphalt hike and bike trail. Located the park is a large grassy multi-purpose field ideal for a friendly game of soccer park boasts a magnificent view of Corpus Christi Bay and is the perfect spot Coastal Bend sunset. In 1993 improvements were done to the park which included bio-filter development, xeriscaping and a micro-estuary just to the rear of the park offers a personal glimpse of how an estuarine environment works. No alcohol public restrooms are available.

N.O. Simmons Park The N.O. Simmons Park is the city's sixth recreational facility through public/private partnerships. This \$1.5 million recreational facility in Ingleside provides a variety of activities for all age groups and interests. Other park facilities in Ingleside include the 6-acre Faith Park which is home to the municipal pool, Hildagarde Schmidt Garden Center, and Little League fields; the 90-acre N.O. Simmons Park which includes two disc golf course, exercise station trail, fishing pond, baseball fields, tennis and basketball courts, and picnic facilities; the 1-acre Oak Terrace playground park, Cove Harbor Park which provides direct access to LaQuinta Cr Christi Bay with a public boat ramp; and the 60-acre Whitney Lake which is located downstream along the drainage channel that forms the west boundary of the park. While the skate park is the most prominent feature of the N.O. Simmons Park also includes a nearly mile-long hike/bike trail that winds through the site, with a rest station along the trail, seven soccer fields of varying sizes for adult league to youth play, a multi-use 7,000 square foot lighted field, a covered lighted basketball court and a lighted group pavilion with game tables and a barbecue area. Other amenities include a 3,500 foot toddler playground, scattered covered and uncovered picnic tables.

permanent cultural kiosk exhibits are located throughout the park and will highlight the city's economic and social development. The west boundary of the park contains a man-made drainage channel that is being enhanced to create a permanent pond area. The pond features a foot-bridge across the channel that will double as a fishing pier and a separate bird-watching observation deck. The city's location along the Texas Parks & Wildlife Department's Great Texas Coastal Birding Trail means that this new permanent pond will attract many of the migratory birds that visit the area each year. The native vegetation habitat also is expected to become home to many of the bird species that make the Coastal Bend region their home. Development of the park began in late 2001 with the donation of the 13.532-acre site to the City from N.O. Simmons, a regional real estate developer, and his wife Maria Lourdes Lara Simmons, with the provision that it be developed as a recreational facility. The City pledged \$500,000 of the nearly \$1.5 million property value as a dollar-for-dollar match to \$500,000 in federal and state park grant funds awarded to the City through the U.S. Department of the Interior's Land and Water Conservation Fund and the Texas Parks & Wildlife Department's Texas Recreational and Parks Account program. Truly a public/private cooperative venture, in addition to the City's pledge of general revenue, several other sources provided cash and volunteer in-kind labor to accomplish construction of the park. These were provided by the Department of the Navy's Naval Station Ingleside crew, San Patricio County Drainage District, San Patricio County Commissioner Jim Price, Ingleside school district, and three youth sports associations: Tri-City Youth Soccer, Sparkling City Youth Basketball, and Ingleside Youth Basketball leagues. All facilities at the Park, except the Skate Park are free to the public.

Faith Park is located adjacent to City Hall on Mustang Drive. The park was built by the Ingleside Garden Club and donated to the city in the 1970s.

This six acre pocket park includes the city swimming pool, the Hildegard Schmidt Garden Center and includes swings, benches, barbecue pits, Little League Fields and a basketball court.

Centrally located between residential neighborhoods, City Hall and the schools, Faith Park was conceived and developed by the Garden Club in the 1970s.

Funded primary through private donations, the city provided playground equipment for the park. During the summer months this is the perfect site for a day at the pool and picnic with the family.

No restrooms.

Whitney Lake The Whitney Lake Project is now open to the public and is free of charge. What began as a drainage project has evolved into a nature lovers's dream come true. The City acquired 70 acres of land that are protected wetlands and upland buffer areas within the Lake Whitney and McCampbell Slough area of Live Oak Peninsula to provide a public recreation and education access area. The watershed, which drains into Port Bay in the Copano Bay System is approximately 3.3 miles downstream, and is extremely diverse, containing freshwater wetlands, brackish marsh, salt marsh and tidal flats. Habitat within this watershed is generally recognized as some of the most valuable habitat on the Live Oak Peninsula. This area has been recognized as a high priority for protection by the Texas Parks and Wildlife Department, the U.S. Fish and Wildlife Service and the Nature Conservancy, the Coastal Bend Bays Foundation and the Coastal Bend Bays and Estuaries Program. McCampbell Slough is particularly noted as a productive and valuable estuarine wetland complex that provides wintering and migratory habitat for waterfowl, shorebirds, wading birds, and other species, as well as nursery habitat for shrimp, blue crabs and finfish. Lake Whitney is a 70-acre wet-meadow noted by local natural conservation personnel as unique in South Texas. Lake Whitney remains wet, even during periods of prolonged drought and has been regarded as an ecological and recreational asset since the early 1930s. The Lake Whitney offers several bird watching areas, extended docks over marsh areas, observation platforms and many other amenities for watching the native wildlife in the Coastal Bend. In addition to the excellent recreational and educational opportunities, Whitney Lake provides wintering and

migratory habitat for waterfowl, shorebirds, wading birds, and other species. This acquisition of habitat allows the City of Ingleside to protect this resource, provide public access and provide excellent recreational and educational opportunities for the public. Whitney Lake is located off of Highway 1069 north of Ingleside, on Tiner Lane. No Restrooms are currently available, however it is anticipated that there will be public restrooms by the end of 2006. No Alcohol allowed.

Live Oak Park

Live Oak Park is set on approximately 90 beautiful oak covered acres in South Ingleside. In this park one will find many fun, family oriented and athletic activities to do.

The park features an 18 hole disc golf course which has been described as one of the "most challenging in South Texas and is used for two major tournaments each year. This year's Bluebonnet Open is scheduled for March 19th.

The park also boasts three lighted tennis courts, a lighted basketball court, a softball field, a play ground for children, and miles of nature trails.

Nestled among large live oaks you can enjoy a picnic with your family and friends, or cook at one of several barbecue pits scattered around the park. There are many picnic tables available for use and several secluded picnicking areas. The park also offers some covered picnic areas.

Additionally, the park is designated as the official site #55 on the [Great Texas Coastal Birding Trail](#), and for good reason. The park contains a fresh water lake that is home to a variety of birds and is located on the migration trail through the area.

Live Oak Park is also used as the site for the Ingleside Chamber of Commerce's annual events the [Renaissance Faire](#) and [Round Up Days](#). The park plays hosts to the Palomas Fun Run each year to raise funds for cancer awareness. The Palomas Run is sponsored by the Ingleside Woman's Club. The Bluebonnet Run is also held at Live Oak annually during March at the height of the bluebonnet season and is sponsored by the Lions Club. This year's Bluebonnet Run is scheduled for Saturday, March 19th.

Portions of the park can be reserved in advance. Alcoholic beverages by permit only. Overnight camping is permitted, with a permit request and restrooms are available.

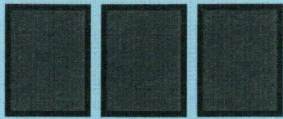

The park is located off of Highway 1069 on the south end of Ingleside. Click [here](#) for map.

Oak Park located on Eighth Street is a semi-residential park that is tucked away under a grove of winding oak trees. Here one will find slides, swings, seesaws, rockers, tables, and benches within the park. This is an ideal park for small children to play or for families to enjoy a picnic under an abundance of shade. No alcohol allowed. No restrooms on site.

Take U. S. Highway 59 to Edna, then State Highway 111 South for approximately 7 miles to Brackenridge Recreation Complex.

The Brackenridge Recreation Complex consists of approximately 275 acres. The Campground covers approximately 85 of the 275 acres.

Brackenridge Recreation Complex is owned and operated by the Lavaca-Navidad River Authority. Our trained and dedicated staff make sure the campgrounds are clean, safe, and fun! We operate our campground on a first come, first served basis. We ask your help to make your time here enjoyable. Our Park personnel and the entire LNRA staff work very hard to offer you the best recreational opportunities possible. Just like in your own home, we like to know who our visitors are and where they are from. We require all campers and guests to register before entering the campground. We welcome you to Brackenridge Recreation Center and Lake Texana.

To: Manuela Morales
Subject: RE: 20120213115311476

Ms. Morales,

I would greatly appreciate any list you could provide. Originally, in 2008, when the report was written a colleague of mine was able to obtain a copy of the City of Palacios's Comprehensive Master Plan for Development, Operation, and Maintenance of Parks, Recreational Facilities and Open Space 2008-2018. Has that document been updated? If not, and all of the information is still valid (which breaks down into the classification of each park, a listing of each park, the acreage, and type) then I will just double check my information against that. However, any updates to the list (I've attached an excerpt from the plan with the applicable information for your convenience) would be a huge help.

Thanks in advance for your help,
KatieBeth

Ms Hunter,

Here is the information you had requested on the parks and acres. I got this information from the Public Works Director, John Martinez.

If there is anything else you need, you can e-mail me and I will pass it along to John Martinez since he does not have e-mail address.

Thank you,

Manuela Morales
361-972-3605

are schools and churches. The large amount of institutional land in the City's ETJ (109 acres) consists mostly of Texas State Technical College's research land on Marine Center Drive, and of a portion of the high school that exists outside of city limits.

Parks and Recreation Land Uses: Presently, the City of Palacios offers the general public about 254 acres of land dedicated to parks and recreation. This equals a very high 5 acres per person. Recreational uses include the Railroad Park, South Bay Park, East Bay Park, Rorem St. Park, various school facilities, numerous RV parks, the walk along the seawall and the Palacios Pavilion, the City's Golf Course, as well as scattered smaller parks and abundant open space, much of which is comprised of wetlands or drainage areas. Within the ETJ, the 88 acres of open space is mostly comprised of the wetlands adjacent to the Port on one side and Texas State Technical College's land on the other.

Public Land Use: Facilities belonging to local, county, and state governments occupy the City's unusually large amount of land reserved for public use, which comprise 682 acres. These uses include the City Hall, fire stations, police stations, utility sites, post offices, and the like, but the greatest amount of acreage in this classification is taken up by the City's airport.

Major Transportation and Rights-of-way: Streets, easements, and transportation rights-of-way comprise 439 acres (19% of the developed landscape in Palacios), and land allocated for street and highway easements comprise the bulk of this category. Although the visibly developed portions of most transportation easements cover less than the total allocated area, all land within the easement retains the distinction of a "developed" landscape. Another 340 acres of rights-of-way exist in the City's ETJ.

Semi-Developed or Vacant: Approximately 172 acres (7% of the developed land) within the corporate boundaries of Palacios consists of semi-developed

V. INVENTORY OF AREAS AND FACILITIES

As was discussed in the previous chapter, National Recreation and Park Association's (NRPA) *Park, Recreation, Open Space & Greenway Guidelines* recommend a level of service of 30 acres of parkland per 1,000 persons with those acres available as 10 acres of parkland for recreational use, 10 acres in greenbelt areas such as scenic parks, streams, and parkways, and 10 acres in reserve or natural state.

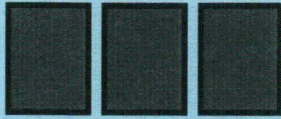

Using these standards and the City's 2000 population of 5,153 people, the City should contain approximately 155 acres of parkland in the following uses: 51.5 acres of recreational use parkland, 51.5 acres of greenbelts, and 51.5 acres of natural area.

Currently, the City owns 11 public park sites as shown on the table below:

Facility Name	Type	Acreage
East Bay Park	Rec Use - N*	7.35
South Bay Park	Rec Use - C**	18.35
Downtown Park	Special Rec Use	1.50
Railroad Park	Rec Use - C**	29.19
Roem Street Park	Rec Use - N*	1.65
Texas Street Park	Rec Use - N*	2.89
Swimming Pool	Special Rec Use	1.28
Golf Course - 9 holes	Special Rec Use	103.60
Foley Reserve Park	Open Space/Natural Area	6.00
Tanner Flats Park	Open Space/Natural Area	5.58
Old Landfill Park	Open Space	6.31
Total Park Acreage		183.70
City-owned public parkland by use:		
165.81 acres for active recreational uses		
17.89 acres reserved as open space/natural areas		
0 acres dedicated as greenbelts, but seawall walkway is approximately 1.5 miles.		
*N=neighborhood		**C=community

Based on the 2000 Census population (5,153 persons) and the 2007 population estimate by the Texas State Data Center (5,175 persons), the City has more than three times the recommended acreage of recreational use parkland. However, backing the golf course acreage out of that formula reduces the amount of developed recreational use parkland to 62.2 acres, which is more in line with the recommended standards.

These recommended levels of service also do not reflect the pending growth in population as the Beachside community develops during the next 10 years. At its build-out, the developers predict as many as 909 new housing units containing as many as

TELEPHONE LOG

Date/Time of Call: February 13, 2012

Topic: Present usage
of WMAs

Personnel Involved in Call	Company/Organization
KatieBeth Hunter	Tt
Matt Nelson	Texas Parks and Wildlife Department, WMAs (979) 323-9553

Summary of Conversation: Contacted Matt Nelson who stated the numbers given in 2008 and now are best guesses. There are no entrance gates to the WMAs and they do not actively count visitors. The numbers he can provide are based on public hunts they periodically host.
