

Russ,

Attached is the third set of staff comments on draft NEI 08-01 Rev 5. This set includes new comments #9.1 and #21, as well as comment #13.3 (D-RAP) which was sent to you in a 5/7/2012 e-mail (also attached).

Please note, the attached set of comments does not address verb tense. The staff is still deliberating on which verb tense(s) (past, present, future) is/are acceptable.

Thanks,

Perry Buckberg

Senior Reactor Operations Engineer

Office of New Reactors

Division of Construction Inspection & Operational Programs
