Dear Mr. Bush:

This refers to: (1) your amendment request dated July 13, 2012 for License Number 13-32359-01, and (2) our telephone conversation on September 7, 2012. During the telephone conversation, we indicated that we would not be able to complete the amendment request without a Termination Request for license number 13-32359-01.

As we discussed during the telephone conversation, we have voided your request to combine this license with another license, License Number 13-03086-03, without a request to terminate that license. This action is without prejudice to resubmission. If you resubmit your request, please state that the resubmission is additional information to Control Number 578016. Please include in the resubmission the termination request for the license that is to be combined with this license and the leak test results for all sources and a statement indicating that there is no history of leaking sources possessed under the license to be terminated. Please note that the remaining changes requested, including the name change, change to the materials and devices authorized will be incorporated into the pending license renewal request.

If you have any questions or require clarification on any of the information stated above, you may contact us at (630) 829-9887.

In accordance with 10 Code of Federal Regulations 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's Agencywide Documents Access and Management System (ADAMS), accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

Sincerely,

A handwritten signature in black ink that reads "Jennifer L. Bishop".
