Document_Title: Generic Environmental Impact Statement for License Renewal of Nuclear Plants: Supplement 38 Regarding Indian Point Nuclear Generating Unit Nos. 2 and 3 - Draft Report for Comment NUREG-1437, Supplement 38, Volume 4, Draft Report

Comments: Re: (category: NUREG-Series Publications (Draft) - document title: Generic Environmental Impact Statement for License Renewal of Nuclear Plants: Supplement 38 Regarding Indian Point Nuclear Generating Unit Nos. 2 and 3 - Draft Report for Comment NUREG-1437, Supplement 38, Volume 4, Draft Report

Dear Nuclear Regulatory Commissioners,

I am a resident of New York City with 2 young children who have a bright future.

I am writing to you today to strongly oppose re-licensing of the Indian Point Reactors. I do not think it is possible for us to properly protect ourselves from a reactor accident, and we just don't need the power from those old, dangerous plants. In today's technology we can switch to sustainable energy like wind energy or solar energy depends upon the environment.

Please think or imagine that if any accident at the Indian Point occurred such as Chernobyl and Fukushima, 20 million people including children, babies and women expecting babies are expose by radiation. I learned at the latest NRC hearing that there were unplanned leaks and spills. It is an undeniable fact that these leaks contribute to the degradation of our environment and health.

We owe it to the future of our children and all other species we share the world with. We can't mess up our beautiful planet. Let's invest in our future and keep it bright.

Yours sincerely,

Rieko Gibbs
