Lisle, IL 60532-4352

SUBJECT: Amendment NRC Lic: 21-32190-01MD, Mail Control # 577761

Dear Mr. Parker:

I respectfully submit this additional information concerning PharmaLogic's amendment to NRC License # 21-32190-01MD, Mail Control # 577761.

PharmaLogic MI LLC has completed construction of a new commercial nuclear pharmacy located at 1501 Cass Street, Suite E, Traverse City, Michigan 49684. This construction and change in location was required to meet revised pharmacy standards of practice.

The current PharmaLogic commercial nuclear pharmacy, located at 1144 Boon Street, Traverse City, Michigan 49686, will be closed upon completion of all decommissioning requirements. At that time PharmaLogic will request the NRC Region III to remove the original location from our NRC License. We project decommissioning to occur within 60 days.

As stated, PharmaLogic desires to move operations to the new location starting on September 1, 2012. Your assistance in meeting this timeframe will be greatly appreciated.

Again I wish to thank you for your consideration of this request.

Sincerely,

Gerard A. Strugala, RPh, BCNP
Vice President, Operations
