Verification of Authorized User and Change of Management Representative/Mailing address

I was unable to confirm that Dr. Ricardo Santiago was an approved authorized user on 52-11534-01 since none of the copies of this license in ADAMS listed him on the license. However, I did find a Ricardo Santiago on several other Puerto Rico licenses. I called Carmelo Pérez and asked him to provide another license number where he works to assure it was the same individual. He provided 52-30883-01 which lists Dr. Ricardo Santiago as a current authorized user for 35.100, 35.200 and 35.300.

The management representative has changed from Martin J. Guillermo to Pedro Barez, MHSA. There was no notification made to the Region, however, I researched the website for the hospital and found Pedro Barez, MHSA listed as the Executive Director of Operations.
