How would I be notified of an emergency at Indian Point?

Special emergency sirens that produce a continuous, four-minute tone would alert people within 10 miles of Indian Point to tune to an Emergency Alert Station (EAS) for information about an emergency at Indian Point. If you hear the continuous, four-minute tone, listen to one of the EAS system stations listed in this brochure for official information on what you should do.

These sirens are tested periodically throughout the year. Siren tests are announced in advance through local news media.

In addition to the sirens, a high-speed telephone service, an e-mail alerting service or web-based services such as NY Alert could be used to notify and inform the public.

Anyone can sign up for NY Alert online at <https://users.nyalert.gov/>

How would I find out what I should do in an emergency?

Officials would use the Emergency Alert System (EAS) radio and television stations to provide information and instructions to the public. EAS stations in this area are listed on the next page. These stations would be the *official* source of information during an emergency.

Different areas could be directed to take different actions, so instructions will be provided in terms of the communities or areas

HOW WOULD I BE NOTIFIED?

HOW WOULD I BE NOTIFIED?

within 10 miles of Indian Point. These areas are shown in the map attached to this document. Find your location on the map and listen carefully for information concerning your area.

Tune in for information

If you hear the emergency sirens, tune in your radio and TV to an Emergency Alert System (EAS) station for further information.

Remember: *The sounding of the sirens is not a signal to take any actions other than to listen to your radio or TV.*

EAS Stations

AM Radio	FM Radio	Television
WFAN 660	WRRV 92.7	WCBS Ch 2
WABC 770	WHUD 100.7	WNBC Ch 4
WCBS 880	WFAS 103.9	WNYW Ch 5
WFAS 1230		WABC Ch 7
WALL 1340		
WLNA 1420		

Emergency information could also be carried on the following stations:

AM Radio	FM Radio	Television
WRKL 910	WNEW 102.7	NEWS 12 HUDSON VALLEY
WTBQ 1110	WGNY 103.1	WRNN
WRCR 1300	WXPB 107.1	
WINS 1010		
WQBN 1640		

What might I be instructed to do?

You could be instructed to shelter-in-place, to evacuate, to take potassium iodide (KI) or to take no action. Officials would base any emergency instructions on the situation at Indian Point and where people were most likely to be affected. People in one area might need to take one action, while people in another area might take a different action or no action at all.

In all cases, avoid using telephones and cell phones to prevent overloading the system and interfering with emergency use.

Shelter-in-Place

If your area is instructed to shelter-in-place, you should remain indoors and limit the ways outside air can enter. This would include:

- > Keep family and pets inside
- > Close windows and doors
- > Turn off air conditioners and ventilation systems
- > Extinguish fires in fireplaces and closing dampers
- > Listen to radio or TV for emergency information

Evacuation

If your area is instructed to evacuate, you should gather the things you would need for a three day stay and leave promptly.

Where should I go, if I have to evacuate?

You should go to the home of a friend or relative or other location outside the 10-mile area around Indian Point using the timeliest route. If you do not have another place to go, you can go to the

WHAT SHOULD I DO?

Reception Center assigned to your area using the routes shown on the attached map. Temporary shelters will be available for those who need a place to stay.

In an evacuation:

- > Be certain that your area is one being ordered to evacuate.
Do not evacuate unnecessarily
- > Remain calm, but act promptly
- > Do not use the telephone to avoid overloading the system
- > Offer a ride to anyone you know who might not have a car
- > Close windows and vents in your car and do not use the air conditioning until you have left the area
- > Bring with you:
 - clothing and blankets or sleeping bags
 - prescription medicines
 - personal items such as shaving kits, soap and cosmetics
 - formula and other supplies for children and infants
 - your checkbook, credit cards, cash and important papers
- > Take KI when instructed to do so

What if I need a ride?

Try to get a ride with a nearby friend or neighbor. If you cannot get a ride, free emergency buses will pick up passengers along the routes near your location and take them to the Reception Center for your area. Bus routes are shown on the Rockland County Bus Routes tab of this booklet.

What is Potassium Iodide (KI)?

Potassium iodide is an over-the-counter medication that can block radioactive iodine from entering the thyroid gland if there were a severe emergency involving a large release of radiation. Potassium iodide is often referred by its chemical symbol, KI.

If Emergency Alert System (EAS) messages direct people in your area to take potassium iodide, follow the instructions on the packaging, or those provided by the EAS message.

During an emergency, Potassium Iodide is available at reception centers.

Obtain KI-Potassium Iodide for your family free of charge

- > Contact Rockland County's Office of Fire and Emergency Services by calling 1-800-942-1450.
- > KI-potassium iodide is also available for purchase at many pharmacies.
- > Most schools in the Emergency Planning Zone (EPZ) have a supply of KI-potassium iodide. Check with your school administrator to be sure.
- > General Population Centers maintain a supply of KI-potassium iodide.

WHAT IS POTASSIUM IODIDE (KI)?

WHAT IS POTASSIUM IODIDE (KI)?

Recommended doses of KI for different Risk Groups

	KI dose (mg)	# ml liquid (65 mg/ml)	# of 65 mg tablets	# of 130 mg tablets
<u>Adults over 40 yrs</u> <u>Adults over 18 through 40 yrs</u> Pregnant or lactating women	130	2	2	1
Adolescents over 12 through 18 yrs who weigh at least 150 pounds	130	2	2	1
Adolescents over 12 through 18 yrs who weigh less than 150 pounds	65	1	1	1/2
Children over 3 through 12 yrs	65	1	1	1/2
Over 1 month through 3 years	32	1/2	1/2	1/4
Birth through 1 month	16	1/4	1/4	1/8

What if my children are in school?

Officials may relocate children in schools to assigned school reception centers as a precautionary measure, even if there is no evacuation of the general public. Teachers and staff have been trained and will travel with students to these reception centers.

The list below shows the assigned school reception centers for each school within 10 miles of Indian Point. Parents and guardians can pick up their children from these reception centers. Please check with your child's school to learn more about relocation planning and parental pick-up plans.

For an up-to-date listing of schools and school reception centers please refer to the Fire & Emergency Services web page at www.co.rockland.ny.us/Fire/indian_point.html

School Reception Centers

BERGEN CATHOLIC HIGH SCHOOL, 1040 Oradell Avenue, Oradell, New Jersey 07649

Bais Malka (Girls)	Pomona Middle School
Cornerstone Christian Community School	Rockland Worksite Day Care Center
Grandview Elementary School	Sonshine Community Nursery
HASC – Gan Ezra	School & Day Care Center
Hempstead Elementary School	Tiny Scholars
Lime Kiln Elementary School	

BERGEN CO. VO-TECH PARAMUS SPECIAL NEEDS, East 275 Pascack Rd., Paramus, New Jersey 07652

Bais Chinuch Hayeshon (Girls)	Reuben Gittelman Hebrew Day School
Bais Yaakov Chofetz Chaim of Pomona	Yeshiva Avir Yaakov (Girls)
CIC Head Start/Early Head Start	Yeshiva Spring Valley (Girls)
New Square Project Head Start	

ROCKLAND COMMUNITY COLLEGE, 145 College Road, Suffern, New York 10901

Building Blocks Center	James A. Farley Middle School
Children of America	North Garnerville Elementary School
Children of Mary Nursery/Kindergarten	North Rockland High School
Circle of Friends	Robin Hill Nursery School
Crickettown Child Care Center	St. Gregory Barbarigo Elementary School
Crickettown One	St. Peter's Elementary School
Fieldstone Secondary School	Stony Point Child Care Center
Gerald F. Neary Elementary School	Stony Point Elementary School
Haverstraw Daycare	Thiells Elementary School
Haverstraw Head Start-Site 1	TLC Learning Center
Haverstraw Head Start-Site 2	West Haverstraw Elementary School
Haverstraw Middle School	Willow Grove Middle School

SCHOOL

ST. THOMAS AQUINAS COLLEGE, Route 340, Sparkill, New York 10976

Ages & Stages	Link Elementary School

Ramapo Senior High School	Summit Park Elementary School
Rockland Learning Center	West Street Child Care Center

Directions to School Reception Centers

BERGEN CATHOLIC HIGH SCHOOL, 1040 Oradell Avenue, Oradell, New Jersey 07649

Directions from Palisades Interstate Parkway

Travel south on the Palisades Interstate Parkway to the New York State Thruway (Interstate 87/287). Take Interstate 87/287 north toward Albany. Exit on the Garden State Parkway (Exit 14A) toward New Jersey. Travel south on the Garden State Parkway to Exit 165 (Ridgewood/Oradell). (Follow directional signs to Oradell). Bear right onto East Ridgewood Avenue. East Ridgewood Avenue becomes Oradell Avenue. Travel approximately one mile. Bergen Catholic High will be on the left (corner of Oradell Avenue and Forest Avenue).

BERGEN COUNTY VOCATIONAL TECHNICAL HIGH SCHOOL, Paramus Special Needs, East 275 Pascack Road, Paramus, New Jersey 07652

Directions from Palisades Interstate Parkway

Travel south on the Palisades Interstate Parkway to the New York State Thruway (Interstate 87/287). Take Interstate 87/287 north toward Albany. Exit on the Garden State Parkway (Exit 14A) toward New Jersey. Travel south on the Garden State Parkway to Exit 165 (Ridgewood/Oradell). Exit 165 merges onto East Ridgewood Avenue. (Follow directional signs toward Oradell). At first traffic signal, make a right turn onto Pascack Road. Bergen County Vocational Technical High School will be 1/4 mile ahead on the left. Note: Roadway in front of school is divided. Proceed 1/4 mile to first traffic signal (U-turn lane).

BERGEN COUNTY VOCATIONAL TECHNICAL HIGH SCHOOL, Central Technical Education Center, East 285 Pascack Road, Paramus, New Jersey 07652

Directions from Palisades Interstate Parkway

Travel south on the Palisades Interstate Parkway to the New York State Thruway (Interstate 87/287). Take Interstate 87/287 north toward Albany. Exit on the Garden State Parkway (Exit 14A) toward New Jersey. Travel south on the Garden State parkway to Exit 165 (Ridgewood/Oradell). Exit 165 merges onto East Ridgewood Avenue. (Follow directional signs toward Oradell.) At first traffic signal, make a right turn onto East Pascack Road. Bergen County Vocational Technical High School will be 1/4 mile ahead on the left. Note: Roadway in front of school is divided. Proceed 1/4 mile to first traffic signal (U-turn lane).

RECEPTION CENTERS

DOMINICAN COLLEGE, 470 Western Highway, Orangeburg, NY 10962

Directions from the Palisades Parkway

Travel south on the Palisades Parkway to Exit 6E, Orangeburg Road. Merge onto Orangeburg Road. At second traffic signal, make a left hand turn onto Western Highway. Travel approximately 3/4 mile. Dominican College's Hennessy Center will be on the right.

ROCKLAND COMMUNITY COLLEGE, 145 College Road, Suffern, New York 10901

Directions from North Rockland High School

Travel to intersection of Hammond Road and Suffern Lane (County Route 94). Right turn onto Suffern Lane to Thiells Mt. Ivy Road (County Route 47). Left turn onto Thiells Mt. Ivy Road. Thiells Mt. Ivy Road to Route 202. Right on Route 202 to Route 306. Left on Route 306 to Viola Road (County Route 74). Right on Viola Road to Rockland Community College. Enter the college via the parking area off Viola Road.

SOUTH ORANGETOWN MIDDLE SCHOOL, 160 Van Wyck, Blauvelt, NY 10913

Directions from Felix Festa Middle School

Travel west on Parrott Road (Parrott Road becomes Germonds Road). Travel on Germonds Road to South Little Tor Road (County Route 33). Left on Little Tor Road to Palisades Interstate Parkway. Palisades Interstate Parkway South to Exit 6E (Orangeburg Road). At second traffic signal, make left hand turn onto Western Highway. Travel approximately one and a 1/2 miles on Western Highway. At second traffic signal, make left hand turn onto Erie Street. Parking lot entrance to school will be one 1/2 mile on left. (School is on corner of Van Wyck and Erie.)

ST. JOSEPH'S REGIONAL HIGH SCHOOL, 40 Chestnut Ridge Road, Montvale, New Jersey 07645

Directions from Village of Spring Valley

Travel south on Route 45 through the Village of Spring Valley to New Jersey (Route 45 turns into Chestnut Ridge Road in New Jersey). Once in New Jersey, St. Joseph's Regional High School is approximately two miles ahead on the right.

ST. THOMAS AQUINAS COLLEGE, Route 340, Sparkill, New York 10976

Directions from Palisades Interstate Parkway

Travel south on the Palisades Interstate Parkway to Exit 5N (Route 303 – Orangeburg). Merge onto Route 303 North. At first traffic signal, make a right turn onto Route 340. Travel approximately 1/4 mile. St. Thomas Aquinas College is on the left.

Rockland County Bus Routes

If you do not have your own transportation out of the area, you can ride one of the buses provided to take you to a reception center or arrange a ride with a neighbor. Following is a list of bus routes and stops in Rockland County. If residents of your area are advised to evacuate, locate the nearest bus stop. You will be advised over the radio when the buses will begin picking up.

What about facilities such as hospitals and nursing homes?

Hospitals, nursing homes and other facilities within 10 miles of Indian Point have emergency plans to keep their residents safe, including provisions for transporting residents to host facilities.

If you have a family member in a facility and require information about their emergency planning initiatives, please contact the facility administrator.

What about people with special needs?

If you have special needs, such as a walking disability, impaired sight or hearing, or need specialized transportation or equipment, the County will make special arrangements for you.

**Call 845-364-2020 or visit our website
www.rocklandregisters.com**

What about pets and livestock?

If you are directed to evacuate, you will want to take your pets with you. Pets would not be permitted in Reception Centers or temporary shelters (except for service animals, such as seeing-eye dogs). Pet owners are encouraged to explore alternatives for their pets, such as boarding kennels, friends or relatives.

If you have livestock or agricultural products, useful information is available from the New York State Department of Agriculture Web site www.agmkt.state.ny.us or call 1-800-554-4501 or call your local Cooperative Extension Office.

The county is developing limited emergency kennel space at Reception Centers. This is being done to accommodate people who cannot make other arrangements for their pets beforehand. Pet owners should plan to bring their own supplies, including food, leashes, cages and carriers etc. Trained volunteers will be available to assist owners with pet care and feeding. Please be mindful that space at this location is limited, so we encourage everyone to make other plans for their pets before the emergency.

Leave No Animal Behind

- > Arrange with friends or relatives to provide temporary shelter for you and/or your pets.
- > Make a list of pet-friendly hotels and motels outside your area. (You can look them up online at www.petfriendlytravel.com or www.petswelcome.com)
- > Ask your veterinarian and boarding facilities if they provide emergency care and boarding during a disaster. (Also identify an alternate veterinarian or boarding facility 30–90 miles away.)

- > Identify all your pets:
 - Microchip your pet;
 - Make sure your pet is wearing a collar or harness with identifying tags on it. Include your phone number and an alternate phone number of someone outside your area;
 - Put leg bands on all birds and ID tags on all pocket-pet cages.

Pet Emergency Kit

Gather these things in advance:

- > Your pet's vaccination and medical records together with your veterinarian's phone number in a watertight plastic bag. (Warning: A shelter or boarding facility may NOT take your pet without current vaccinations!)
- > Current photographs of you and your pet together.
- > Medication your pet is taking.
- > Pet food & bottled water for 3–14 days.
- > Pet food dishes; manual can opener
- > Cages/carriers for all pets. Carriers must be big enough to allow your pet to stand, turn around and lie down. (Temporary shelters may NOT have cages available, therefore you MUST provide your own!)
- > Blankets or towels for bedding and warmth.
- > Leashes, harnesses, muzzles (if needed).
- > Cat litter, a litter pan and scoop.
- > Plastic bags for disposal of waste, paper towels, disposable gloves, disinfectant.
- > First aid kit: gauze, peroxide or antiseptic wipes, ointments, adhesive tape.
- > Treats, toys, brushes, combs.

If you absolutely MUST leave them...

- > Put a sign or sticker in a front window identifying all pets inside. Include your name, phone numbers and where you are staying. Include the name and number of a contact outside the area. Put ID tags on all pets.
- > Keep dogs and cats in separate rooms.
- > Leave as much food & water as you can.
- > Open up bags of dry food.
- > Fill many large bowls with water.
- > Contact authorities and animal rescue groups immediately with information about the location of your animals.

How are emergencies at nuclear power plants classified?

The federal government established four classifications for emergencies at nuclear power plants. In order from the least to most serious, they are:

- > An **UNUSUAL EVENT** indicates a potential problem with operation of the plant. Officials are notified, but no public action is necessary.

- > An **ALERT** indicates an event that could reduce the plant's level of safety. Any release of radioactivity would be a small fraction of the federal guidelines. No public action would be required.

- > A **SITE AREA EMERGENCY** indicates a problem that substantially reduces the plant's level of safety. Releases of radioactivity outside the plant site would not be expected to exceed federal guidelines. Residents should monitor the situation on television or radio.

- > A **GENERAL EMERGENCY** indicates a problem affecting safety systems in the plant that could lead to a release of radiation that would exceed the federal guidelines outside the plant. Protective actions may be ordered for some areas.

My Emergency Plan

Keep a copy of your emergency plan information in your car, briefcase or purse. Photocopy as needed for additional family members.

1. Emergency Alert System (EAS) stations:

AM radio _____

FM radio _____

TV _____

2. Reception Center _____

3. Recommended route to get to my Reception Center is

4. Emergency bus stop is located at _____

5. Child(ren)'s School Reception Center(s):

Child's name

School Reception Center

_____	_____
_____	_____
_____	_____
_____	_____

6. My family's KI is stored: _____

7. "Check-in" phone number _____

8. Meeting place _____

Phone _____

What is Radiation?

Radiation is energy, such as heat, light or radio waves, which moves through space or matter at high speed. It can be easily detected and measured using specialized instruments. In very large amounts, radiation can damage living cells.

Radiation comes from many natural and common man-made sources. Cosmic rays, radon from bedrock, radioactive elements in the foods we eat and materials we use to build our homes all come from natural sources. These natural forms of radiation are part of what is called background radiation. Man-made radiation comes from sources such as X-rays, other medical procedures, television sets, microwave ovens and electric power plants.

The effect of radiation on the human body is measured in units called millirems. The average background radiation exposure in this area is about 600 millirems per year. About 50% of exposure to radiation in the U.S. comes from natural sources; the other 50% comes from man-made sources.

Sources of Radiation Exposure in the United States
