June 20, 2013

Dear Director:

Subject: Response to requirements of Safety Inspection report and Compliance Inspection

Per instructions provided in the Safety Inspection Report and Compliance Inspection notice [Docket Number 030-38527 (copy attached)], issued by Region 1 inspector Farrah Gaskins, please accept the following:

As cited in the reference document, Legacy Supply Chain Services (hereafter referred to as "Legacy") of 500 Ships Landing Way, New Castle, DE, failed to submit transfer reports as required by 10 CFR 31.52(a)(7) for the third and fourth quarters of calendar year 2012 and for the first quarter of 2013. The corrective action initiated in response to this citation is that the Radiation Safety Officer, Marc Hill, of Legacy, will complete a transition of reporting mechanisms from the manufacturers of the radioactive devices identified in Legacy's NRC license 07-31467-02 by July 13, 2013 as required in the inspection notice.

Please let us know if there is need for further information regarding this issue.

Regards,

Kristie Hammell

**To:** BENNETT, DAVID S (A-LittleFalls,ex1)  
**Cc:** [mhill@legacyscs.com](mailto:mhill@legacyscs.com)  
**Subject:** RE: NRC notice of transfers

David,

Because this is a regulatory requirement for the G distribution license for Legacy, the information provided should be as stated in 31.52(a) as outlined in a previous email sent by Betsy. Though Agilent has sent in reports indicating initial transfer, Legacy is still required to make reports. Since Agilent has already made the reports, the required report should state that no transfers were made as stated in 31.52(a)(7). In order for Legacy to be in compliance, a report for each quarter stating that no transfers were made should be submitted.

Yes, the reports should be sent as stated in 32.52 by one of the methods given in 30.6(a).

If you have any additional questions or concerns or need clarification, please give me a call.

Thanks,

610-337-5143

**Subject:** FW: NRC notice of transfers

Hi Farrah,

Marc Hill of Legacy Systems notified me this morning of a conversation you held with him regarding providing notice to the NRC that Legacy did not transfer devices for quarters 3 and 4 of 2012 and quarter 1 of 2013. May I recommend that he provide notice stating that Legacy, as the initial transferor, did not report the transfer of devices for those quarters but that transfer reports were provided by the manufacturer for the referenced quarters and that Legacy is working with the manufacturer to transition responsibility of transfer reporting and will be completed prior to quarter 2 reporting date limit of July 31'st? Please also confirm that the NRC office you wish him to notify is the one listed in 10 CFR 32.52 and 30.6 (a).

Thanks  
Dave
