**SUBJECT:** COMANCHE PEAK NUCLEAR POWER PLANT, UNITS 3 AND 4  
DOCKET NUMBERS 52-034 AND 52-035  
FINAL SAFETY ANALYSIS REPORT REVISION 3, UPDATE TRACKING REPORT  
REVISION 2 (CHAPTERS 1, 2, 3, 8, 9, AND 13), AND ITAAC AND PROPOSED  
LICENSE CONDITIONS REVISION 3, UPDATED TRACKING REPORT REVISION 3

Dear Sir:

Luminant Generation Company LLC (Luminant) submits herein (1) Update Tracking Report (UTR) Revision 2 for the Final Safety Analysis Report (FSAR), which is Part 2 of the Combined License Application (COLA) for Comanche Peak Nuclear Power Plant Units 3 and 4, Revision 3, and (2) UTR Revision 3 for the ITAAC and Proposed License Conditions, which is Part 10 of the same COLA revision. The UTRs reflect changes made as a result of the 2011 Fukushima event, changes caused by US-APWR Design Control Document updates, and editorial changes. The UTR revision lists provide a summary of and a reason for each change, and address any differences in page numbers between COLA Revision 3 and the UTR.

Should you have any questions regarding the UTRs, please contact Don Woodlan (254-897-6887, Donald.Woodlan@luminant.com) or me. Addressees on the electronic distribution list will receive the UTR as an optimized PDF file via e-mail rather than on CD.

This submittal completes the evaluation of offsite communications equipment provisions cited in Regulatory Commitment #8377 (ML12207A599; July 24, 2012) and COLA Part 10 includes a proposed license condition for implementing the improvements. There are no new commitments in this letter.

I state under penalty of perjury that the foregoing is true and correct.

Executed on August 1, 2013.

Sincerely,

Luminant Generation Company LLC
