

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D.C. 20555-0001

August 12, 2013

Holders of Operating Reactor Licenses
as Listed in Enclosure 1

SUBJECT: RESCISSION OF CERTAIN SECURITY ORDERS CONCERNING SPENT
NUCLEAR FUEL IN TRANSIT

Following the terrorist attacks on September 11, 2001, the U.S. Nuclear Regulatory Commission (NRC) issued a series of security-related orders to specific licensees. In the area of security for spent nuclear fuel (SNF) in transit, the NRC issued orders to licensees who shipped or received, or were planning to ship or receive, spent nuclear fuel.

The NRC imposed additional security requirements on the shipment of SNF through EA-02-109, "Issuance of Order for Interim Safeguards and Security Compensatory Measures for the Transportation of Spent Nuclear Fuel Greater than 100 Grams" (67 FR 63167, October 10, 2002). Subsequently, the Commission issued similar security orders to licensees shipping SNF during the period of October 2003 through December 2010. These orders are collectively referred to as the "SNF Transportation Orders." The NRC issued these orders to certain NRC operating reactor licensees who shipped, received, or planned to ship or receive, spent nuclear fuel under the provisions of Part 71 of Title 10 of the *Code of Federal Regulations* (10 CFR), "Packaging and Transportation of Radioactive Material."

The NRC issued all of the orders as immediately effective under the agency's authority to protect the common defense and security pursuant to the provisions of the Atomic Energy Act of 1954, as amended, and the Commission's regulations in 10 CFR 2.202, "Orders," as well as those in 10 CFR Parts 50, 70, 71, and 72. The requirements that the NRC established through the SNF Transportation Orders supplemented the existing regulatory requirements for the shipment of SNF at that time. The NRC intended for these additional security requirements to ensure that SNF was shipped in a manner that protects the common defense and security as well as the public health and safety.

On May 20, 2013 (78 FR 29520), the NRC issued a final rule for 10 CFR Part 73.37, "Physical Protection of Irradiated Reactor Fuel in Transit," which established security requirements for SNF in transit (RIN 3150-A164; NRC-2009-0163). When the rule becomes effective on August 19, 2013, it will establish the acceptable performance standards and objectives for the protection of SNF shipments from theft, diversion, or radiological sabotage. The final rule incorporates the security requirements in the existing orders for SNF in transit as well as lessons learned from the implementation of the SNF Transportation Orders.

Therefore, the NRC staff has determined that the generically applicable security requirements set forth in the SNF Transportation Orders are now adequately captured in the NRC's regulations. In addition, the associated guidance document, NUREG-0561, Rev. 2, "Physical Protection of Shipments of Irradiated Reactor Fuel" (ADAMS Accession No. ML13120A230), provides clarifying information regarding the implementation of the requirements in the rule.

In SRM-SECY-12-0009, "Final Rule: 10 CFR 73.37, Physical Protection of Irradiated Fuel in Transit," dated June 7, 2012 (ADAMS Accession No. ML12159A260), the Commission approved rescinding the SNF Transportation Orders on the effective date of the final rule for 10 CFR 73.37, consistent with the Rescission Plan for these Orders as provided in Enclosure 2 to SECY-12-0009, "Final Rule: 10 CFR 73.37, Physical Protection of Irradiated Fuel in Transit," dated January 19, 2012 (ADAMS Accession No. ML113640156). Accordingly, effective August 19, 2013, the NRC hereby rescinds EA-02-109, "Issuance of Order for Interim Safeguards and Security Compensatory Measures for the Transportation of Spent Nuclear Fuel Greater than 100 Grams," and subsequent similar security orders issued during the period of October 2003 through December 2010, to licensees shipping SNF. Although, the information in the orders remains Safeguards Information until decontrolled by the NRC they may be destroyed in accordance with the requirements in 10 CFR 73.22(i), "Destruction of Matter Containing Safeguards Information," when licensees no longer need them.

Licensees should assess how the rescission of the SNF Transportation Orders will affect their facility licenses and security plans so that they can ensure compliance with the final rule and other associated regulatory requirements. Note that not all licensees listed in the enclosure received the subject SNF Transportation Orders.

The NRC has filed the enclosed Notice of Rescission of SNF Transportation Orders with the Office of the Federal Register for publication.

Please contact your licensing project manager for help on any issue related to the requirements in this letter or for help on any other questions.

Sincerely,

Eric J. Leeds, Director
Office of Nuclear Reactor Regulation

Catherine Haney, Director
Office of Nuclear Material Safety and
Safeguards

NUCLEAR REGULATORY COMMISSION

10 CFR Part 73

RIN 3150-AI64

[NRC-2009-0163]

Physical Protection of Irradiated Reactor Fuel in Transit

AGENCY: Nuclear Regulatory Commission.

ACTION: Orders; rescission.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) is rescinding EA-02-109, "Issuance of Order for Interim Safeguards and Security Compensatory Measures for the Transportation of Spent Nuclear Fuel [SNF] Greater than 100 Grams," dated October 10, 2002, and subsequent similar security orders issued to licensees shipping SNF during the period of October 2003 through December 2010. These orders are collectively referred to as the "SNF Transportation Orders." The SNF Transportation Orders are being rescinded because the NRC published a final rule, "Physical Protection of Irradiated Fuel in Transit," on May 20, 2013, amending its regulations to incorporate the security requirements in the SNF Transportation Orders and lessons learned from implementation of the SNF Transportation Orders.

DATES: Effective August 19, 2013, the NRC hereby rescinds EA-02-109, dated October 10, 2002, and subsequent similar security orders issued to licensees shipping SNF during the period of October 2003 through December 2010.

ADDRESSES: Please refer to Docket ID NRC-2009-0163 when contacting the NRC about the availability of information for this action. You may access publically-available information related to this action by the following methods:

- **Federal Rulemaking Web Site:** Go to <http://www.regulations.gov> and search for Docket ID NRC-2009-0163. Address questions about NRC dockets to Carol Gallagher; telephone: 301-287-3422; e-mail: Carol.Gallagher@nrc.gov. For technical questions, contact the individual listed in the FOR FURTHER INFORMATION CONTACT section of this document.

- **NRC's Agencywide Documents Access and Management System (ADAMS):**
You may access publicly available documents online in the NRC Library at <http://www.nrc.gov/reading-rm/adams.html>. To begin the search, select "ADAMS Public Documents" and then select "Begin Web-based ADAMS Search." For problems with ADAMS, please contact the NRC's Public Document Room (PDR) reference staff at 1-800-397-4209, 301-415-4737, or by e-mail to pdr.resource@nrc.gov. The ADAMS accession number for each document referenced in this document (if that document is available in ADAMS) is provided the first time that a document is referenced.

FOR FUTHER INFORMATION CONTACT: Jessica Umaña, Office of Nuclear Material Safety and Safeguards, U.S. Nuclear Regulatory Commission, Washington DC 20555-0001; telephone: 301-287-9226, e-mail: Jessica.Umana@nrc.gov.

SUPPLEMENTARY INFORMATION: The NRC issued the SNF Transportation Orders to certain NRC power plant licensees, non-power reactor licensees, special nuclear material licensees, and independent spent fuel storage installation licensees, who shipped, received, or

planned to ship or receive SNF under the provisions of Part 71 of Title 10 of the *Code of Federal Regulations* (10 CFR). The Commission issued the SNF Transportation Orders during the period from October 2002, through December 2010. The SNF Transportation Orders were issued as immediately effective under the NRC's authority to protect the common defense and security pursuant to the provisions of the Atomic Energy Act, and the Commission's regulations in 10 CFR 2.202 and 10 CFR Parts 50, 70, 71, and 72. The requirements established by the SNF Transportation Orders supplemented the existing regulatory requirements for the shipment of SNF at the time. These additional security requirements were primarily intended to ensure that SNF was shipped in a manner that protects the common defense and security, and the public health and safety.

On May 20, 2013 (78 FR 29520), the NRC published the final rule for 10 CFR 73.37, "Physical Protection of Irradiated Reactor Fuel in Transit" (RIN 3150-AI64; NRC-2009-0163). The final rule incorporates the security requirements in the SNF Transportation Orders as well as lessons learned from the implementation of the SNF Transportation Orders. The final rule becomes effective on August 19, 2013, and establishes the acceptable performance standards and objectives for the protection of SNF

shipments greater than 100 grams from theft, diversion, or radiological sabotage. The requirements in the final rule capture and make generically applicable the security requirements in the SNF Transportation Orders.

Dated at Rockville, Maryland, this 12th day of August 2013.

For the Nuclear Regulatory Commission.

A handwritten signature in black ink, appearing to read "Eric J. Leeds". The signature is fluid and cursive, with a large initial "E" and "L".

Eric J. Leeds, Director,
Office of Nuclear Reactor Regulation.

A handwritten signature in black ink, appearing to read "Catherine Haney". The signature is cursive and elegant, with a large initial "C".

Catherine Haney, Director,
Office of Nuclear Material
Safety and Safeguards.

In SRM-SECY-12-0009, "Final Rule: 10 CFR 73.37, Physical Protection of Irradiated Fuel in Transit," dated June 7, 2012 (ADAMS Accession No. ML12159A260), the Commission approved rescinding the SNF Transportation Orders on the effective date of the final rule for 10 CFR 73.37, consistent with the Rescission Plan for these Orders as provided in Enclosure 2 to SECY-12-0009, "Final Rule: 10 CFR 73.37, Physical Protection of Irradiated Fuel in Transit," dated January 19, 2012 (ADAMS Accession No. ML113640156). Accordingly, effective August 19, 2013, the NRC hereby rescinds EA-02-109, "Issuance of Order for Interim Safeguards and Security Compensatory Measures for the Transportation of Spent Nuclear Fuel Greater than 100 Grams," and subsequent similar security orders issued during the period of October 2003 through December 2010, to licensees shipping SNF. Although, the information in the orders remains Safeguards Information until decontrolled by the NRC they may be destroyed in accordance with the requirements in 10 CFR 73.22(i), "Destruction of Matter Containing Safeguards Information," when licensees no longer need them.

Licensees should assess how the rescission of the SNF Transportation Orders will affect their facility licenses and security plans so that they can ensure compliance with the final rule and other associated regulatory requirements. Note that not all licensees listed in the enclosure received the subject SNF Transportation Orders.

The NRC has filed the enclosed Notice of Rescission of SNF Transportation Orders with the Office of the Federal Register for publication.

Please contact your licensing project manager for help on any issue related to the requirements in this letter or for help on any other questions.

Sincerely,

/RA/

Eric J. Leeds, Director
Office of Nuclear Reactor Regulation

/RA/

Catherine Haney, Director
Office of Nuclear Material Safety and Safeguards

Docket Nos.: See enclosure

- Enclosures: 1. List of Operating Reactor Licensees
2. Notice of Rescission of SNF Transportation Orders
