At 2 pm on 3/25/13, call 888-469-5869, enter code (b)(6) and press the # button. During the meeting we ask that you don't allow your background noise on to the phone line, which is shared by everyone who is calling in. If your phone has a mute button you can use that. Otherwise, use the built in mute feature of our phone system. Press *6 to mute your phone, and *6 again to unmute if you decide to ask a question during the public question period. If your phone system plays music when you put a call on hold, please do not put this call on hold.

John,

Can you please provide me with the call in # and pass code?

Thank you

Thomas E. Spink
