At 2 pm on 3/25/13, call 888-469-5869, enter code and press the # button. During the meeting we ask that you don't allow your background noise on to the phone line, which is shared by everyone who is calling in. If your phone has a mute button you can use that. Otherwise, use the built in mute feature of our phone system. Press *6 to mute your phone, and *6 again to unmute if you decide to ask a question. If your phone system plays music when you put a call on hold, please do not put this call on hold. Attached are the slides for the meeting.
