Hi Shirley-

Reference is made to your September 29, 2014 application letter. ESAB is committed to compliance with the rules and regulations subject to the oversight of the Nuclear Regulatory Commission (NRC). Per your office's request, we have prepared the proposed method of labeling each unit containing the substance in question (Thorium). Attached, please find a copy of the proposed labeling to be considered as part of our application submission initially submitted on August 27, 2014 and received in your office on September 25, 2014.

If you have any further inquiries, please do not hesitate to contact me.

Shawn
