SUBJECT: REQUEST FOR ADDITIONAL INFORMATION

Dear Mr. Piarulli:

This refers to your license renewal application request dated October 23, 2014, (Agencywide Documents Access and Management System (ADAMS) No. ML14300A136) for Nuclear Regulatory Commission (NRC) exempt-distribution license number 20-23630-01E. Item 13 of your existing license lists documents that are mostly more than ten years old. The intention of this letter is to request that you provide an up-to-date document that contains all of the information required by the regulations in Title 10, Code of Federal Regulations, Part 32 (10 CFR 32), sections 32.14 and 32.15. It is acceptable to reuse previously submitted documents as long as they are provided as attachments to a new document describing your current program. The new document should provide the answers to each of the questions in the enclosure to this letter, either as a statement within the new document itself, or by referring to an attached, previously-submitted document.

We will continue our review upon receipt of this information. If we do not receive your reply within 30 calendar days from the date of this letter, we will consider your application as having been abandoned by you. This action would be without prejudice to the resubmission of another application with the required information.

In accordance with 10 CFR 2.390 of the NRC's "Agency Rules of Practice and Procedure," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records component of NRC's Agencywide Documents Access and Management System (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

Any correspondence regarding this renewal application should reference control number 585131.

D. Piarulli
