Dear Mr. DeLaBarre:

Enclosed for your information is an application dated October 01, 2014, from Westinghouse Electric Company LLC, requesting Amendment No.01 to export license XR176. The purpose of this amendment is to: 1) add the name of the Ultimate Consignee that owns the Barakah plant already listed on the current license, and 2) add an Intermediate Consignee located in South Korea.

No other changes to the terms and conditions of the existing license are requested; therefore, we intend to issue this minor amendment after the required 30-day time period allotted for public review expires and it is determined that the applicable export license criteria are met.

Sincerely,

A handwritten signature in black ink that reads "Brooke G. Smith".
