RE: Amendment to NRC License No. 21-01549-02 MidMichigan Medical Center

Dear Sir/Madam:

We would like to request an expedited review to amend our current NRC license for the following reasons:

- 1) An Authorized Medical Physicist left our organization and we would like to get the new physicist on the license to allow appropriate physics coverage for all of our patients.
- 2) Our current RSO is planning to retire in the near future and we would like to switch to the new RSO before he leaves. We have appointed a new RSO, and are awaiting your review for permanent status.

A full listing of the changes are as follows:

- Item #1:** Please remove **Dennis Kehoe, M.S.** as the Radiation Safety Officer (RSO) from our NRC license effective October 22, 2014.
- Item #2:** Please list **Victor D. Hosfeld, M.S., DABR** as the RSO on our **NRC license No. 21-01549-02**, effective October 22, 2014. Victor Hosfeld is currently listed as an Authorized Medical Physicist (AMP) on the license. We have enclosed a copy of the RSO/Executive Management agreement letter and NRC Form 313A (RSO) for your review.
- Item #3:** Please remove **Ian Reineck, M.S.** as an AMP from our NRC license.
- Item #4:** Please add **Matthew Buczek, M.S.** as an AMP for Iridium-192 in a High Dose Rate Afterloader for calibrations, spot-checks, and training; and cobalt-60 in a Leksell Gamma Knife Perfexion Stereotactic Radiosurgery Unit for Calibrations, spot checks and training. We have enclosed a copy of NRC Form 313A (AMP) for your review.
- Item #5:** Please add **Charles Guidot, M.D.** as an Authorized User for 10 CFR parts 35.100, 35.200 and 35.300. He is listed as an Authorized User on license 21-32568-01, Saginaw Valley Medical Imaging for these uses.

If you have any questions or require additional information, please contact physicist Victor Hosfeld, M.S. at (989) 839-1407.

Sincerely,

Dennis Kehoe

Re: Radiation Safety Officer / Executive Management
Letter of Understanding

Dear Mr. Hosfeld,

You have been appointed the Radiation Safety Officer (RSO) of this facility for our United States Nuclear Regulatory Commission Materials License. This "Letter of Understanding" is prepared to comply with Title 10 Code of Federal Regulations (CFR) Part 35.24(b). This section of the regulations requires that you agree in writing to the following:

- Assume responsibility for implementing the Radiation Protection Program
- Ensure that radiation safety activities are being performed in accordance with our own approved procedures and all regulatory requirements.

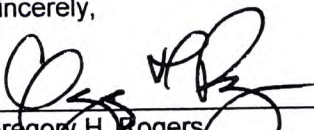

The executive management of this facility agrees to provide you as RSO:

- Specific written notation of your authority, duties and responsibilities, as stated in this document.
- Sufficient authority, organizational freedom, time, resources and management prerogative to:
 1. Identify radiation safety problems;
 2. Initiate, recommend, or provide corrective actions;
 3. Stop unsafe operations; and,
 4. Verify implementation of corrective actions.

You are hereby delegated the authority necessary to meet those responsibilities, including prohibiting the use of byproduct material by employees who do not meet the necessary requirements and shutting down operations where justified to maintain radiation safety. You are required to notify management if staff does not cooperate and does not address radiation safety issues. In addition, you are free to raise issues with the Nuclear Regulatory Commission at any time.

Our signatures noted below will attest to the issues noted above. Please make a copy of this document for your files and return the original to my attention.

Sincerely,

Gregory H. Rogers
