Re: Correction to Request for Exemption Letter, Dated March 7, 2014

Dear Ms. Frazier:

This letter is to document an incorrect reference to a section of the Nuclear Regulatory Commission (NRC) regulations in the above-named letter. Specifically, in that letter we had provided notification in accordance with and requested an exemption from 10 CFR 30.36(d)(3). As we discussed in our telephone conversation earlier today, the context of our request obviously is in reference to 10 CFR 30.36(d)(4). We had simply misstated the section of the regulations for which we were providing notification and requesting an exemption.

All references to 10 CFR 30.36(d)(3) in the aforementioned letter should correctly read 10 CFR 30.36(d)(4). Please accept our apologies for any confusion related to this incorrect reference. Should you have any additional questions, please don't hesitate to contact me.

Sincerely,

Mack L. Richard, MS, CHP
