References: Letter from USNRC (P. Saverot) to EnergySolutions (S. Sisley), "Request for Additional Information for the Review of the Model No. 8-120B Package," October 9, 2014.

Dear Sir or Madam:

In the referenced letter, NRC requested that EnergySolutions provide additional information needed by the NRC staff for the review of the application to amend the Certificate of Compliance (CoC) for the Model No. 8-120B package. NRC requested that EnergySolutions provide the additional information by November 14, 2014 or provide notification no later than October 31, 2014 if our response will be later.

EnergySolutions will be unable to submit the requested additional information by the November 14, 2014 deadline. The delay is necessary in order to schedule and hold a meeting with the NRC staff to discuss EnergySolutions' responses, and to complete the responses. We will notify you of the planned RAI response submittal date following that meeting.

Should you or your staff have questions, please call me at (408) 558-3509 or contact me by email at [ssisley@energysolutions.com](mailto:ssisley@energysolutions.com).

Sincerely,

A handwritten signature in black ink, appearing to read "Sisley".
