Re: **Lost Creek ISR LLC, Permit 788, Class 3 UIC Well Acceptance for Mine Unit 1 Header House 6 (HH 1-6)**

Dear Mr. Cash:

LQD is in receipt of Lost Creek ISR's Notice of Completion of Construction for Class 3 wells in Mine Unit 1 Header House 6 (HH 1-6) at the Lost Creek ISR Project. The Notice was sent via electronic mail by Lost Creek ISR's Steve Loose on June 9, 2014. In lieu of an onsite records review and field inspection of the wells for the HH 1-6 Notice, an electronic review of the records was conducted. By doing this review, LQD will not exercise its right to inspect these wells as provided for in Chapter 11, Section 11(b)(ii)(A) and (B).

Based upon my review of the records provided for the 72 wells that are covered in the above-referenced Notice, all wells were found to be acceptable. **All well certifications indicated in the above-referenced Notice are hereby accepted by the Land Quality Division (LQD) as being in compliance with the approved Operations Plan and LQD Noncoal Rules and Regulations Chapter 11, Section 11(b).**

Lost Creek ISR is authorized to commence ISR injection and mining operations with the 72 specified wells within HH 1-6 in accordance with the Operations Plan for Permit 788. LQD expects that a hard copy of the Notice will be sent via regular mail, for the file. If there are any questions regarding this letter, please contact Melissa Bautz in the Lander Land Quality Division office at (307) 332-3047.

Sincerely,

Melissa L. Bautz, P.G.
Natural Resources Analyst
