NRC Representative Name/Title: Dennis Lawyer/Health Physicist

Subject: RAI, Need Amendment Request

Discussion: I called Ms. Newman and stated that we received information from Los Alamos National Laboratory that they received material from them. Since this did not come from the licensee, I asked if she was going to send us an amendment request. She said a request had been sent earlier which was voided. I reviewed the request with her and stated that the previous request was not clear at least to me, as we need to know if items from the license should be removed or activity lowered or that she may not even want to change the license at all. She understood and is making a new request. I also stated that we did not get leak test results and since the earlier amendment discussed a transfer of other material, I would need leak tests and a letter from the receiving location for that material also.

Action Required: Ms. Newman would send in an amendment request letter along with the additional information. I would keep this action open to complete the action.
