Mr. Christopher G. Miller  
Director, Division of License Renewal  
Office of Nuclear Reactor Regulation  
U.S. Nuclear Regulatory Commission  
Washington, DC 20555-0001

**Subject:** Industry Recommendations for Updating GALL Revision 2 and LR-SRP Revision 2

**Project Number: 689**

Dear Mr. Miller:

On behalf of the nuclear energy industry, the Nuclear Energy Institute (NEI)<sup>1</sup> welcomes the opportunity to respond to the U.S. Nuclear Regulatory Commission (NRC) request for recommendations for updating NUREG-1801 Revision 2, Generic Aging Lessons Learned (GALL) Report, and NUREG-1801 Revision 2, Standard Review Plan for Review of License Renewal Applications for Nuclear Power Plants, (LR-SRP) to support subsequent license renewal (SLR) activities. This request was outlined in a teleconference with the NRC on October 21, 2013.

The attached technical input form provides industry recommendations for updating the Selective Leaching Program and associated aging management review lines in GALL Revision 2 and LR-SRP Revision 2. This recommended update for the Selective Leaching Program was previously provided via email to your staff.
