Sattar,

That is in error. Our license would be renewed only for the Troxler gauges as previously done.

Regards,

Jeffrey A. Wieboldt

Current license authorized use of Troxler gauges only. Your renewal application includes CPN, Humboldt, Seaman and Soiltest gauges. We need the model numbers and the number of each of the gauges, including the number of each type in order for us to include them in your license. If you prefer to send the response via e-mail, please make sure that your response does not include the privacy-related statement normally included in many official e-mails. Thanks
