

December 10, 2014

Jeffrey T. Gasser, Executive Vice President
Southern Nuclear Operating Company, Inc.
Operational Readiness & Site Integration
Plant Vogtle, Units 3 and 4
7825 River Road
Waynesboro, GA 30830

Dear Mr. Gasser:

I am responding to your letter dated October 16, 2014, regarding the proposed conduct of the U.S. Nuclear Regulatory Commission (NRC)-evaluated force-on-force (FOF) exercises for Units 3 and 4 at the Vogtle Electric Generating Plant (VEGP). The NRC staff has reviewed your proposal and finds your plans acceptable for scheduling those drills in 2019.

Please continue to keep the NRC informed of the progress at VEGP, and of any potential changes to the construction schedule. VEGP Units 3 and 4 will need to be included in the NRC-evaluated FOF exercises when Southern Nuclear Operating Company determines these units to be operational. If you have any questions, please contact Mr. Clay Johnson at (301) 287-3688.

Sincerely,

/RA/

James T. Wiggins, Director
Office of Nuclear Security
and Incident Response
