Diablo Canyon Units 1 and 2
Expected Submittal Date for Licensee Event Report 1-2014-003 Supplement 2

Reference: PG&E Letter DCL-14-069, "Supplemental Licensee Event Report 1-2014-003-01, Unanalyzed Condition Affecting Unit 1 and 2 Emergency Diesel Generators, Tornado Missiles," dated August 4, 2014.

Dear Commissioners and Staff:

In the above reference, Pacific Gas and Electric Company (PG&E) submitted a supplement to a Licensee Event Report (LER) regarding an unanalyzed condition that affected the Unit 1 and 2 emergency diesel generators. In the referenced letter, PG&E indicated that it would provide an LER supplement to include the results of the extent of condition evaluation by November 3, 2014.

PG&E has not yet completed its extent of condition evaluation. Based on the current plan for completion, PG&E will submit the LER supplement no later than February 2, 2015.

PG&E makes no new or revised regulatory commitments (as defined by NEI 99-04) in this letter.

Sincerely,

Barry S. Allen
