SUBJECT: DEPARTMENT OF THE ARMY, LICENSE AMENDMENT, CONTROL NO.

Dear COL Avery:

This letter refers to your license amendment requests to add additional locations of use and storage in Building No. 9250, and the HAZMAT Building; change your Radiation Safety Officer to CPT Daniel Lawindy; and remove Bradley L. Kocher, M.D., as an authorized user from your NRC License. Enclosed with this letter is the amended license. This Amendment adds the new facilities as requested to enable you to move your licensed activities. Prior to release of your current facility for unrestricted use, you must receive an Amendment removing your current facility from your license. Include in the request, the results of surveys demonstrating that the levels of residual activity in the facility are acceptable. When you submit the Amendment request, please refer to the Control Number at the top of this letter.

Please review the enclosed document carefully and be sure that you understand and fully implement all the conditions incorporated into the amended license. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region I Office, Licensing Assistance Team, (610) 337-5239, so that we can provide appropriate corrections and answers.

An environmental assessment for this action is not required, since this action is categorically excluded under 10 CFR 51.22(c)(14).
