**Subject:** Request for Additional Information for Termination

*(This is the title that will be used in ADAMS)*

**Discussion:** I contacted Bryan Yoder, who conducted the close-out survey of the licensed facility to request a copy of the last sealed source physical inventory and leak tests. I asked him to provide disposal information for any sealed sources that were not transferred to Nanticoke Cardiology. Since his close-out survey was conducted with a meter that had not been calibrated within the last year, I asked him to confirm that only short lived radioisotopes were used at this location. Since no material has been used at the location since June 25, 2014, this confirmation will be adequate to confirm no residual contamination.

**Action Required:** Complete termination upon receipt of acceptable documentation.
