

**FEMA**

OCT 27 2014

Ms. Cynthia Pederson  
Regional Administrator  
U.S. NRC Region III  
2443 Warrenville Road, Suite 210  
Lisle, IL 60532-4351

Dear Ms. Pederson:

Enclosed is a copy of the final report for the August 27, 2014, exercise of the offsite radiological emergency response plans site-specific to the Quad Cities Nuclear Power Station (QCNPS). The State of Iowa, Clinton and Scott Counties participated in this exercise. This report was prepared by the Federal Emergency Management Agency (FEMA) Region VII staff. The final report will be provided to the State of Iowa.

No deficiencies, areas requiring corrective action (ARCAs) or planning issues were identified as a result of the exercise.

Based on the results of the exercise, the offsite preparedness and radiological response plans for the State of Iowa (and the affected local jurisdictions site-specific to the QCNPS) can be implemented and are adequate to provide reasonable assurance that appropriate measures can be taken offsite to protect the health and safety of the public in the event of a radiological emergency at the site. Therefore, the Title 44 CFR, Part 350 approval of the offsite radiological emergency response plans and preparedness for the State of Iowa, site-specific to the QCNPS, granted on March 26, 1986, will remain in effect.

Should you have any questions or concerns regarding the report, please to contact Mr. Charles (Chuck) Gregg at (816) 283-7926 or [Chuck.Gregg@FEMA.DHS.GOV](mailto:Chuck.Gregg@FEMA.DHS.GOV).

Sincerely,

A handwritten signature in cursive script that reads "Beth Freeman".

Beth Freeman  
Regional Administrator
