REQUESTS FOR ADDITIONAL INFORMATION

LICENSE RENEWAL APPLICATION OCTOBER 20, 2014

The U.S. Nuclear Regulatory Commission (NRC or the staff) and representatives of DTE Electric Company (DTE) held a telephone conference call on October 20, 2014, to discuss and clarify the following requests for additional information (RAIs) concerning the license renewal application (LRA).

RAI # S-5

A table showing the dollar distribution (or percentage) of the Fermi 2 property tax payment and each entity's total revenue (or percent of total revenue) would be helpful. It's important to understand how dependent some of these entities are on the revenue received from the Fermi 2 property tax payment via Frenchtown Township.

Discussion: DTE requested the staff to clarify whether the staff wanted DTE to provide information on total revenue or total property tax revenue. The staff indicated that it wanted DTE to provide information regarding total property tax revenue. RAI S-5 was revised as follows:

A table showing the dollar distribution (or percentage) of the Fermi 2 property tax payment and each entity's total property tax revenue would be helpful. It's important to understand how dependent some of these entities are on the property tax revenue received from the Fermi 2 property tax payment via Frenchtown Township.

RAI # S-10

Questions regarding Attachment D, Table 3.8-5b. "2013 Property Tax Distribution Associated with Fermi 2"

- a. Footnote e appears to be missing in the table. Is the footnote referring to column "Total Fermi Power Plant Taxes" or "Total Township Taxes"?
- b. Are the numbers under the column heading "Total Township Taxes" total taxes owed, property taxes owed, tax revenue from all sources, or tax revenue from property taxes alone? Please provide the percent of "Total Fermi Power Plant Taxes" from total revenue (or property tax revenue) by taxing jurisdiction?
- c. Please explain footnote e, "Due to different classifications and tax abatements, actual mills paid may not equal mills subjected to." Are you trying to say, due to parcel reclassification and tax settlement refunds [see Attachment A, Table 1 footnotes] the amount paid may not equal the amount owed? Please clarify. Does this explain why the total (\$20,465,290) for the 2013 "Total Fermi Power Plant Taxes" column does not reflect the \$821,136 in total adjustments shown in Attachment B, Table 3, "Property Taxes Paid by Millage Type" for tax year 2013 and Attachment A, Table 1, "Fermi 2 Property Tax Distributions 2009-2013"? For example, Table 1 footnotes, \$155,604 parcel reclassification + \$665,532 settlement refund = \$821,136 total adjustments in tax year 2013. Please confirm that this is correct.

Discussion: DTE requested clarification on the item b in RAI S-10, specifically whether or not the staff was asking for the percentage of total revenue, or total property tax revenue. The staff explained that for item b, the staff is requesting DTE to clarify which data is being presented in the table, and that it would be acceptable for DTE to submit either percentage of total revenue or total property tax revenue.
