Hey Tami,

Thanks for the quick response, but I don't think that is quite what I need. I should have sent this after we talked, but I forgot to ask.

Attached is more of what I need for the Delegation of Authority. Please take a look at the model and let me know if you have questions. The other document is just fyi - the background for the DoA.

Thanks.  
Bryan

Subject: Delegation of Authority

You, Michael A. Gilbert, D.O., have been appointed Radiation Safety Officer and are responsible for ensuring the safe use of radiation. You are responsible for managing the Radiation Protection Program; identifying radiation protection problems; initiating, recommending, or providing corrective actions; verify implementation of corrective actions; stopping unsafe activities; and ensuring compliance with regulations. You are hereby delegated the authority necessary to meet those responsibilities, including prohibiting the use of byproduct material by employees who do not meet the necessary requirements and shutting down operations where justified to maintain radiation safety. You are required to notify management if staff does not cooperate and does not address radiation safety issues. In addition, you are free to raise issues with the Nuclear Regulatory Commission at any time. It is estimated that you will spend 2 hour per week conducting radiation protection activities.
