**Subject:** Acceptance Review of Request to Terminate Facility Clearance for Curtiss-Wright EMC - ACM 14-0015  
**Date:** Friday, October 31, 2014 10:39:00 AM

---

Mr. Toelle:

The U.S. Nuclear Regulatory Commission (NRC) staff performed an acceptance review of Mr. Peter Miner's submittal dated August 18, 2014 (ACM 14-0015), requesting the NRC to conduct a close-out inspection for the Curtiss-Wright Electro-Mechanical Division facility in Cheswick, Pennsylvania (CW-EMC). Mr. Miner's letter also requested termination of the Facility Security Clearance for CW-EMC. The NRC staff found the submittal acceptable for a detailed technical review.

The Technical Assignment Control (TAC) number for this licensing action is **L34295 - Termination of Facility Clearance for Curtiss-Wright EMC - ACM 14-0015**. Under our metrics system, the NRC has up to **150 days** to review USEC's request after it has been accepted. As such, NRC's review of your request is to be completed by not later than **March 27, 2015**.

In accordance with 10 CFR 2.390(d) of the NRC "Rules of Practice and Procedure," a copy of this communication will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records component of the NRC's Agencywide Documents Access and Management System (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room).

Please contact me should you have any questions.

Cordially,

Osiris Siurano, Project Manager  
Uranium Enrichment Branch  
Division of Fuel Cycle Safety and Safeguards  
Office of Nuclear Material Safety and Safeguards  
U.S. Nuclear Regulatory Commission
