November 5, 2014

Mr. Michael J. Pacilio
Senior VP, Exelon Generation Co., LLC
President and CNO, Exelon Nuclear
4300 Winfield Road
Warrenville, IL 60555

SUBJECT: OPERATOR LICENSING EXAMINATION APPROVAL

Dear Mr. Pacilio:

The purpose of this letter is to confirm the final arrangements for the upcoming operator licensing examinations at the Braidwood Station, Units 1 and 2.

The U.S. Nuclear Regulatory Commission (NRC) has completed its review of the operator license applications in connection with this examination and separately provided a list of approved applicants to Mr. Darren Stiles, Training Director. Note that any examination waivers have been addressed in separate correspondence.

The NRC has approved the subject examinations and hereby authorizes you to administer the written examination in accordance with Revision 9, Supplement 1, of NUREG-1021, "Operator Licensing Examination Standards for Power Reactors," one day during the week of November 24, 2014. The NRC will administer the operating tests in accordance with Revision 9, Supplement 1, of NUREG-1021, "Operator Licensing Examination Standards for Power Reactors," during the weeks of November 10 and 17, 2014.

This examination has undergone extensive review by my staff and representatives responsible for licensed operator training at your facility. Based on this review, I have concluded that the examination meets the guidelines of NUREG-1021 for content, operational, and discrimination validity. If you determine that this examination is not appropriate for licensing operators at your facility, please contact me at (630) 829-9707.

Please contact Mr. R. M. Morris, Chief Examiner, at (630) 829-9508, if you have any questions or identify any errors or changes in the license level (RO or SRO) or type of examination (partial or complete written examination and/or operating test) specified for each applicant.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records System (PARS) component of NRC's Agencywide Documents
