

**RESPONSE SHEET**

**TO:** Annette Vietti-Cook, Secretary  
**FROM:** Chairman Allison M. Macfarlane  
**SUBJECT:** COMSECY-14-0038: TASKING TO DEVELOP  
MATERIAL CATEGORIZATION FOR POTENTIAL  
REPROCESSING FACILITIES

Approved  X  Disapproved      Abstain      Not Participating    

**COMMENTS:** Below  X  Attached      None    

I approve the staff's recommendation to discontinue activities under WITS201000189, which directed the staff to develop a detailed analysis and to provide recommendations for the use of a material categorization approach for potential reprocessing facilities and for applications that use or separate large quantities of americium and/or neptunium. Based on the current lack of interest in reprocessing, the staff should not direct resources to these activities for the foreseeable future.

**RESPONSE SHEET**

**TO:** Annette Vietti-Cook, Secretary  
**FROM:** Commissioner Baran  
**SUBJECT:** COMSECY-14-0038: TASKING TO DEVELOP MATERIAL CATEGORIZATION FOR POTENTIAL REPROCESSING FACILITIES

Approved  Disapproved  Abstain  Not Participating

**COMMENTS:** Below  Attached  None

I approve the staff's request to not develop a Commission paper on a material categorization approach for potential reprocessing facilities or for large quantities of Americium and Neptunium as directed by the Commission in the SRM to SECY-09-0123. I agree with the staff that the other rulemaking efforts currently underway are sufficient, particularly in light of the staff's conclusion that there is only a "small likelihood of reprocessing technology as a viable option in the foreseeable future."
