Site Response Analysis for Seismic Hazard Studies at Nuclear Facilities

On July 20, 2015, as a result of a competitive solicitation, cost-reimbursable contract number NRC-HQ-60-15-C-0005 was awarded to the University of Texas at Austin, in Austin, Texas. The objective of this contract is to support the Office of New Reactors regulatory activities associated with assessing the application of methods for developing ground motion response spectrum and strain compatible dynamic properties for soil structure interaction analyses. The period of performance is July 20, 2015, through July 19, 2016, with two 1-year option periods. The total cost ceiling is \$554,656, inclusive of the options.

Emergency Response Data System (ERDS) Operations and Maintenance

On July 22, 2015, as a result of a competitive solicitation, fixed-price task order number NRC-HQ-11-15-T-0001 was issued under the General Services Administration schedule contract number GS35F0068J to Project Performance Company, LLC, in McLean, Virginia. The task order provides for all required activities associated with the maintenance and continued operations of NRC's Emergency Response Data System. The period of performance is from July 29, 2015, through March 2, 2016, with eight 6-month options. The total price ceiling is \$4,479,567, inclusive of options.

Fidelis Command Post and XPS Direct 1000 Native-mode Software and Appliances

On July 22, 2015, as a result of a competitive solicitation, fixed-price purchase order number NRC-HQ-7S-15-P-0006 was awarded to Impres Technology Solutions, Inc. in Santa Fe Springs, California. The objective of this purchase order is to purchase Fidelis Command Post and XPS Direct 1000 appliances, software and maintenance. The period of performance is from July 22, 2015, through July 21, 2016, with four 1-year options. The total price ceiling is \$290,816, inclusive of options.

Technical Review of Korea Hydro and Nuclear Power (KHNP) Company Advanced Power Reactor (APR) 1400 Design Certificate Document Chapter 15 and Topical Report Review Support Activity

On July 27, 2015, as the result of a non-competitive solicitation, cost-reimbursable task order NRC-HQ-25-15-T-0001 was issued under enterprise-wide contract number NRC-HQ-25-14-E-0001 to Numark Associates, Inc. of Washington, DC. The objective of this task order is to obtain technical assistance in determining the adequacy of the KHNP APR1400 Chapter 15 and related reports for use in the APR1400 Design Certification application. The period of performance is from July 24, 2015, through December 31, 2016. The total cost ceiling is \$746,224.

Review of Browns Ferry Nuclear (BFN) Extended Power Uprate License Amendment Request Using AREVA Atrium 10XM Fuel, Including Applicability of AREVA Methods to BFN

On July 28, 2015, as a result of a non-competitive solicitation, cost-reimbursable task order NRC-HQ-20-15-T-0028 was issued under interagency agreement number NRC-HQ-25-14-D-0004 to Oak Ridge National Laboratory, in Oak Ridge, Tennessee. The objective of this task order is to determine the acceptability of the plant-specific evaluations described in parts of the License Amendment Request, which demonstrate that Brown's Ferry Nuclear meets the intent of NRC's General Design Criteria of Appendix A to Part 50, Title 10 of the US Code of Federal Regulations that pertain to Reactor Systems evaluation. The period of performance is October 1, 2015, through September 30, 2017. The total price ceiling is \$281,000.

Commercial Distribution of Tritium Markers: Petition for Rulemaking (PRM); Denial: Part 32 of Title 10 of the Code of Federal Regulations (PRM-32-8; NRC-2013-0078)

On July 30, 2015, the NRC published a document in the *Federal Register* ([80 FR 45413](#)) denying Petition for Rulemaking (PRM) -32-8 that was filed with the NRC by Motti Slodowitz on behalf of CampCo (the petitioner). The petitioner requested that the NRC amend its regulations that govern the licensing of products containing byproduct material to allow the commercial distribution of tritium markers for use under an exemption from licensing requirements. The NRC is denying PRM-32-8 because the petitioner failed to demonstrate that a specific exemption is warranted and that the existing regulatory framework for self-luminous products is insufficient. The docket, PRM-32-8, was closed on July 30, 2015.

Issuance of Seabrook Final Supplemental Environmental Impact Statement

On July 29, 2015, the staff issued Final Supplement 46 to NUREG-1437, "Generic Environmental Impact Statement for License Renewal of Nuclear Plants, Regarding Seabrook Station, Unit 1." The final supplemental environmental impact statement (FSEIS) represents the completion of the staff's environmental review of the license renewal application submitted by NextEra Energy Seabrook, LLC. The FSEIS contains the staff's conclusion that the impacts would not preclude renewing the plant's license for an additional 20 years.
