

March 11, 2016

The Honorable Barbara Boxer
Ranking Member, Committee on
Environment and Public Works
United States Senate
Washington, DC 20510

Dear Senator Boxer:

When we met in May 2015, I committed to keep you informed about the status of Diablo Canyon's compliance with the U.S. Nuclear Regulatory Commission actions based on the lessons learned from the March 2011 accident at the Fukushima Dai-ichi nuclear power plant in Japan. In a September 9, 2015, letter, I provided you with a Pacific Gas and Electric (PG&E) August 2015 status report on Diablo Canyon's implementation of the Commission Order for Mitigation Strategies for Beyond-Design-Basis External Events. To keep you informed of the latest actions at Diablo Canyon, I am enclosing PG&E's most recent status report on implementation of the Mitigation Strategies Order. PG&E has completed implementation of the order for Diablo Canyon Unit 1 and will complete implementation for Unit 2 by May 31, 2016.

If you have any questions or concerns regarding this matter, please feel free to contact Eugene Dacus, Director of the Office of Congressional Affairs, at (301) 415-1776.

Sincerely,

/RA/

Stephen G. Burns

Enclosure:
As stated
