the ten (10) items comprising three (3) additional questions. Of the questions and parts of questions remaining, twelve (12) items will be submitted as a Supplement to this Amendment in December, 1977.

This Supplement has been prepared in a format with pagination for insertion in the DFFR directly following Amendment 1 (Reference 3) superseding Amendment 2, Supplement 1 (Reference 5) entirely. To facilitate identification of the changes comprising Supplement 2, a vertical line and the abbreviation "S2" has been added to the margin adjacent to each Supplement 2 item. Those items without marginal notation comprise the original Amendment 2 (Reference 4) and Amendment 2, Supplement 1 (Reference 5). Please replace DFFR pages A-29 through A-76 (Amendment 2, Supplement 1) with the enclosed Supplement 2, and discard the replaced pages.

The planned December, 1977, Supplement to this Amendment will include an expanded Keyword Index listing each question by number, Keyword, Supplement number, related DFFR Section (where applicable), and response date. Each question response will also be marked in the margin to denote the Supplement in which the reply first appeared.

Any questions regarding this Supplement should be directed to L. H. Frauenholz, the Mark II Containment Licensing Engineer, telephone No. (408) 925-2623.

Sincerely,

L. H. Frauenholz for
