Dear Mr. Halpin:

On February 15, 2017, the U.S. Nuclear Regulatory Commission (NRC) completed a security inspection at your Diablo Canyon Power Plant, Units 1 and 2, and the NRC inspector discussed the results of this inspection with Mr. J. No NRC-identified or self-revealing findings were identified during this inspection.

However, the inspector documented one licensee-identified violation which was determined to be of very low security significance in this report. The NRC is treating this violation as a non-cited violation (NCV) consistent with Section 2.3.2.a of the Enforcement Policy.

If you contest the violations or significance of these NCVs, you should provide a response within 30 days of the date of this inspection report, with the basis for your denial, to the U.S. Nuclear Regulatory Commission, ATTN: Document Control Desk, Washington, DC 20555-0001; with copies to the Regional Administrator, Region IV; the Director, Office of Enforcement; the Director, Office of Nuclear Security and Incident Response; and the NRC resident inspector at the Diablo Canyon Power Plants, Units 1 and 2.

This letter will be made available for public inspection and copying at http://www.nrc.gov/reading-rm/adams.html and at the NRC Public Document Room in accordance with 10 CFR 2.390, "Public Inspections, Exemptions, and Requests for Withholding."
