Reference: Letter ET 17-0001, dated January 17, 2017, from J. H. McCoy, WCNOG, to
USNRC

Subject: Docket No. 50-482: Errata for the License Amendment Request for the
Transition to Westinghouse Core Design and Safety Analyses

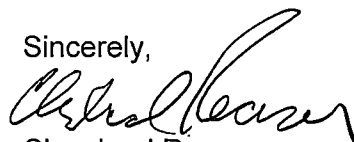

To Whom It May Concern:

It was identified on March 21, 2017, that the Reference contained an incorrect version of WCAP-18083-P, Revision 0, "Westinghouse Revised Thermal Design Procedure Uncertainty Calculations for the Wolf Creek Generating Station," as Enclosure II. In accordance with 10 CFR 50.9(b), the correct version of WCAP-18083-P, Revision 0, is enclosed with this submittal as a complete replacement for Enclosure II of the Reference.

As Enclosure I of this submittal contains information proprietary to Westinghouse Electric Company LLC, it is supported by an affidavit signed by Westinghouse, the owner of the information. The affidavit, which was submitted as Enclosure IX to the Reference, sets forth the basis on which the information may be withheld from public disclosure by the NRC and addresses with specificity the considerations listed in paragraph (b)(4) of Section 2.390 of the NRC's regulations. Accordingly, it is respectfully requested that the information, which is proprietary to Westinghouse, be withheld from public disclosure in accordance with 10 CFR Section 2.390 of the NRC's regulations.

This letter contains no commitments. If you have any questions concerning this matter, please contact me at (620) 364-4171, or Cynthia R. Hafenstine (620) 364-4204.

Sincerely,

Cleveland Reasoner
