[External\_Sender] Re: Seabrook Annual Assessment Meeting - Follow-up to Request for Publicly Available Information on [www.NRC.gov](http://www.NRC.gov)

TO: Fred Bower

Thank you, Fred. I will go through this carefully and let you know if I have any questions.

Best regards,  
Tom

Dr. Sherman,

Thank you for attending the Seabrook Annual Assessment Meeting (Agencywide Documents Access and Management System (ADAMS) Accession No. ML17125A042) last night (June 7, 2017) in Hampton, NH. We appreciate you sharing your views and engaging the Nuclear Regulatory Commission (NRC) staff with your questions.

I am writing in response to your request, during the meeting, to be provided with the webpage links to access the publicly available annual radioactive effluent and environmental reports for Seabrook 1. The reports for the period from 2005 to 2015 are available at the following link on the NRC's website: <https://www.nrc.gov/reactors/operating/ops-experience/tritium/plant-specific-reports/seab1.html>.

The NRC's website provides a significant amount of publicly available information regarding the agency, its mission and our regulatory processes. The following link would be a good starting point to obtain additional information regarding Seabrook Station: <https://www.nrc.gov/info-finder/reactors/seab1.html>

Please do not hesitate to contact me at the email address or phone numbers listed below if you have further questions or concerns regarding the NRC, its mission or issues within our regulatory purview.

Sincerely,

Fred Bower
