RE: St. Lucie Unit 1
Docket No. 50-335
In-Service-Inspection Plan
Second Ten-Year Interval
Revised Relief Request 21

The second ten-year in-service-inspection (ISI) interval for St. Lucie Unit 1 ended on February 11, 1998. Florida Power & Light Company (FPL) submitted the ISI program second ten-year interval closeout relief requests (R/R) by letter L-99-23 on February 11, 1999. After telephone conference calls on September 8, 1999, and October 21, 1999, and reviews of previous NRC safety evaluations, the NRC project manager for St. Lucie notified FPL that R/R 21 requires additional information.

The purpose of this letter is to supplement the ISI program second interval R/R 21 with the information requested by the NRC. Please contact us should you require any additional clarifications.

Very truly yours,

J. A. Stall
